FUNERAL OF DIAZ IS TO BE VERY SIMPLE

ARRANGEMENTS NOT YET COM-
PLETED FOR INTERMENT OF
FORMER PRESIDENT
OF MEXICO.

By Associated Press.

Paris, France, July 3.—The funeral
of General Porfirio Diaz, who died
here yesterday morning, will be sim-
ple. The arrangements are not yet
completed.

Porfirio Diaz was born in Oaxaca,
Sept. 15, 1830. He began his military
career in 1847. He was first elected
president in 1877 and was succeeded
by Gen. Gonzalez in 1880, but was re-
elected in 1884 and held office con-
tinuously until his retirement during
the Madero revolution on May 25,
1911.

Twice captured by his opponents,
he escaped and joined his com-
panions, and his military career was
marked by a series of brilliant suc-
cesses which caused him to be re-
garded by the experts of other coun-
tries as one of the foremost soldiers
of modern times.

As a statesman he proved himself
to be astute and far-seeing. He was
ever animated by a desire to make
his country equal to any other, and
while his methods were not those of
our own great statesmen, they were
suited to conditions and the people
he had to deal with.

He ruled as with a rod of iron, and
only when age began to weaken his
physical frame did he lose his grasp
on the staff of command. His asso-
ciates in his later years took ad-
vantage of his declining health, and
they were really the ones who were
responsible for much of the antagon-
ism of the people against a contin-
uation of his rule.

WILL PROSECUTE HUERTA.

By Associated Press.

Washington, July 3.—The United
States will prosecute Huerta for con-
spiracy to incite revolution in a
friendly country.

Orozco Disappears.

El Paso, Texas, July 3.—Pascual
Orozco has disappeared.

GOVERNMENT LOST SUIT.

By Associated Press.

Philadelphia, Pa., July 3.—The
United States district court today
decided against the government in
the suit to dissolve the Reading com-
pany and separate the New Jersey
Central railroad from the Reading.

GARIBALDI DAY IN ITALY.

Rome, July 3.—The celebration of
the birthday of Garibaldi, the maker
of modern, united Italy, will be a
national event tomorrow, and will be
more enthusiastic than ever before.
The day is sacred to Italians, for
Giuseppe Garibaldi, the liberator, was
the son of a simple fisherman at Nice,
a man of the people.

GERMANS STILL FIGHTING ARMS EXPORT.

Detroit, Mich., July 3.—A giant
meeting of representatives of all Ger-
mans and Austrian church, social, in-
ternational and political societies will
be held here today, to discuss how to
stop the sale of arms to belligerent
nations. A temporary political orga-
nization of all German, Austrian and
Hungarian societies will be formed to
compel President Wilson, if possible,
to place an embargo on the export of
arms and ammunition. Among the
distinguished Germans invited to talk
are George S. Viereck, the poet, Prof.
Edmund Von Mack of Harvard, Dr. C.
J. Hexamer of the German-American
alliance and Congressman Richard P.
Bartholdt of Missouri.

It is the sentiment of the leaders in
the movement that strength only com-
mands respect, and that only by show-
ing a united front for the millions of
Germans and Austrians can the sup-
plies for the Allies be stopped.

By Associated Press.

Berlin, July 3.—It is unofficially
estimated that during May and June
the Germans captured 1,500 officers,
520,000 men, 300 field guns, 770 ma-
chine guns and a great mass of war
material from the Russians.

Sank Turkish Steamers.

Petrograd, July 3.—A Russian sub-
marine sank two Turkish steamers
and one sailing vessel in the Black
Sea. It then exchanged shots with
three armed schooners and drove
them ashore off the Bosphorus. In
the Baltic the Russian squadron
caused a German cruiser to be beached
and put four others to flight. The
damage to the Russians was slight.
German submarines unsuccessfully
attacked the Russian ships.

Sank Belgian Steamer.

London, July 3.—A German subma-
rine today sank the Belgian 1,400-ton
steamer Boduognat. The crew was
saved.

New Russian War Loan.

Petrograd, July 3.—Russia has is-
sued a new war loan of \$500,000,000.

Requisition Cancelled.

Washington, July 3.—Ambassador
Page cabled today that the British
steamer Armenian, sunk by a subma-
rine with the loss of American lives,
had been "requisitioned" by Great
Britain, but the requisition was can-
celled before she sailed on her last
trip.

British Attacks Repulsed.

Constantinople, July 3.—The official
report issued today says that British
attacks were repulsed at Avi Burnu
and Seddul Bahr. The British were
driven back to their old positions.

INFERNAL MACHINE IN SENATE BUILDING

TIMED FOR HOUR IT WRECKED
THE RECEPTION ROOM
WHEN NO ONE WAS
NEAR IT.

By Associated Press.

Washington, July 3.—That the ex-
plosion in the public reception room
in the senate wing of the capitol was
due to a bomb or an infernal machine
apparently was proven today when
the Washington Times, an afternoon
newspaper, received a letter post-
marked two hours before the explo-
sion last night, saying the explosion
would take place. The letter, signed
"R. Pearce," said the writer had been
waiting to carry out this plan, which
would be "the exclamation point of
his career." The officials believe it
was the act of some crank or foreign
sympathizer who was opposed to the
policies of the government. No one
was injured and the damage was
principally confined to this room.

Wrecked Reception Room.

Washington, July 3.—A terrific ex-
plosion wrecked the reception room
on the east side of the capitol build-
ing shortly before midnight last night.
Visitors were allowed in the room
during the day and a timed machine
might have been left without attract-
ing attention. The watchman in the
hall directly below the reception room
said he was almost blown from his
chair by the force of the blast. He
declared no one could have been near
the room for hours.

MORE RUMSHOPS CLOSE.

Kansas City, Mo., July 3.—Severe
barrooms in this city close their
doors tonight, under the order of the
new board of police commissioners,
issued in March. A hundred saloons
were affected by the order, thirty of
which were closed down at once.
Forty saloons owned by breweries
have also been closed down.

So strict are the new rules regard-
ing the booze dispensaries that on
Main Street, between 12th and 20th
streets, only one saloon is allowed to
be open and it must be in the middle
of the block and have a cigar store in
front. No display windows showing
the brilliant bottles are allowed.

CRAZED TEACHER SHOT J. P. MORGAN

SAID HIS AUTHORITY CAME
FROM ON HIGH TO KILL
MORGAN BECAUSE OF
ARMS EXPORTS.

By Associated Press.

New York, July 3.—J. P. Morgan
was shot this morning. Mr. Morgan
is the financial agent of Great Britain
in this country. He was shot twice
but not seriously injured at his coun-
try home near Glencove, Long Island,
by Frank Holt, of Dallas, Texas, a
man of mixed German and French
descent according to his own state-
ment.

In a signed statement Holt said he
went to see Morgan to persuade him
to influence millionaires in the United
States who are financing the Euro-
pean war to have an embargo
placed on the export of arms.

Mr. Morgan was shot in the arm
and hip, but talked over the telephone
to New York, saying that his wounds
were not serious. Morgan's butler
struck Holt over the head with a coal
hod, felling him to the floor. He was
carried to jail. Holt had two re-
volvers, two large boxes of cartridges,
three sticks of dynamite and a bottle
of nitro-glycerine. He said the au-
thority to shoot Morgan came from
on high. Later he appeared unable to
realize what he had done. The effect
on the stock market was negligible.

Had Family in Dallas.

Dallas, Texas, July 3.—Holt was
the son-in-law of President Elder O.
F. Senabough of the Dallas district
of the Methodist church. He was
coming to Dallas in August as head
of the French department of the
Southwestern University here. He
has a wife and children here.

Tacoma, Wash., July 3.—A Chicago,
Milwaukee and St. Paul passenger
train fell through a trestle near here
this morning. Many are reported killed
and injured.

RAILROAD ASSETS INCREASED.

By Associated Press.

Austin, Texas, July 3.—The in-
tangible assets of all Texas railroads
were announced today to have in-
creased \$211,000 over last year. They
now amount to more than \$148,000,000.

BILLY SUNDAY DAY AT THE FAIR.

San Francisco, July 3.—Billy Sun-
day, the baseball evangelist who has
been making the sinners and the cur-
ious sit up and take notice in the East,
came down from his Oregon ranch to-
day for "Billy Sunday Day" at the
Exposition. He is primed to open his
summer campaign after a good rest
in the hills. He has brought with
him "dope" on the devil and his gang
and will deliver a few home run hits
to an audience of admirers.

TO TELL ENGLISH OF AMERICAN SENTIMENT.

New York, July 3.—Among the pas-
sengers on the American liner Phila-
delphia, which sails today for Liver-
pool, is Rev. Thomas Van Ness, of
Brookline, Mass., who has accepted
the invitation to preach a series of
sermons in Birmingham, England,
which the summer, "American Sentiment"
will be the topic of a series of
lectures which he will deliver at the
University of Birmingham.

SENTENCE LOUISVILLE SLAYER TODAY.

Louisville, Ky., July 3.—Julius
Bahey, convicted of wife murder, will
be sentenced to the electric chair to-
day, the first white Louisville mur-
derer to pay the penalty in this
fashion. Bahey was found guilty in
the first degree of the murder of his
wife, which took place April 23. His
defense was insanity, and his mother
testified in his behalf that he was in-
jured by a blow on the head.

UNVEIL SHAFT AT FORT LIGONIER.

Pittsburg, Pa., July 3.—A huge
granite shaft to commemorate the
erection of Fort Ligonier was unveiled
today at Ligonier, Pa., by the Sons
of the American Revolution. In the
monument is imbedded a bronze
tablet setting forth the history of the
fort, which was built in 1758, after
George Washington, then a surveyor,
had designed the plans. The old
fort is still in good condition. From
it General Forbes, with Col. Washing-
ton, marched against the French at
Fort Duquesne, and it was there that
the expedition for the relief of Fort
Pitt was organized.

FETING A PRISONER.

San Antonio—Carrancista and Villista San Antonio, that is—manifests deep sorrow over the fact that the American army officers at El Paso have seen fit to extend the courtesies of dinners and smokers to Victoriano Huerta while he is under charges of conspiracy to violate the neutrality of the United States. One of the most enraged San Antonians—the report does not mention if he is retained for the prosecution or not—says that all that was lacking in the reception accorded the old man when he was arrested was a brass band.

It is a custom among the officers of the United States army to recognize the officers of other armies as being entitled to the courtesies such as gentlemen usually accord each other in the world over. The late Geronimo Treviño was the recipient of many courtesies from the United States officers at Fort McIntosh, and his family will never forget the sympathy shown them when the old hero died here in Laredo.

Other Mexican officers have been shown the customary courtesies while in this country, and one of them—General Mendoza, late of the Mexican federal army and at present a refugee from his distracted country—has been received by the officers at the post with the courtesies due from one officer and gentleman to another.

Unless the press reports are untrue there have been several of the officers of the Carranza and Villa factions who have also met with courtesies from our army officers. Even Villa himself was visited by General Hugh Scott, while at the same time it is very likely that the Villa to find himself in this country he would be an object of suspicion, if not direct charges, on the part of our department of justice.

There is an old rule of common law, which governs all procedure in American courts, and that is: "A man is always innocent until proven guilty." The department of justice appears to believe Huerta guilty of the crimes with which he is charged. But that does not require that the army of officers should consider him guilty until he is so proven.

Gen. Huerta is a graduate of the military academy of his country. He has been promoted from the lowest commissioned rank through the various steps to the rank of major general. He may justly be considered as worthy of the ordinary courtesies as between gentlemen. He did not gain his rank by robbing henroosts or violating women or murdering the unfortunate prisoners that his men captured.

He did not spring into prominence from the exalted position of a goat-herder or a bricklayer to the rank of major general. He has been recognized as the social equal of many of the world's diplomats, soldiers and civilians. There is nothing derogatory to their rank when the officers of the United States army offer him the courtesy of a dinner.

That San Antonio should raise a howl over the courtesies offered Huerta by our army officers is perfectly natural. San Antonio has been noted as a hotbed of Mexican revolution for many years past. Several of the conspiracies against the former Mexican government were hatched in that city, and rare have been the months for many years that some junta or other has not been openly tolerated, if not aided, in San Antonio.

As to the charges against General Huerta, they must be proved by a United States federal court. They will not be either proved or disproved by any action of army officers in giving the old man a dinner. But while San Antonio is so much exercised over the presence of Huerta in the United States, why not say something about the numberless revolutionary generals who were dined and feted by San Antonians prominent in society, as well as by some of the army officers? How about Antonio I. Villareal and his several visits to San Antonio? There is little use in the pot calling the kettle black.

MISCONCEPTION OF DUTY.

A boy lies dying in a Texas hospital. He is but sixteen years old, and he felt the lure of the road, so he ran away from home with some companions. Riding on a freight train, he was seen by a peace officer. He jumped from the train upon hearing the shout of the policeman, and at the moment he was running, he was tempted to run away. Not halting when commanded, the officer fired a 45-caliber bullet into his breast.

The officer, in his ignorance of his rights under the law, probably thought he was doing his duty when he shot this runaway boy, but he will never be able to forget the murder he committed under cover of his official badge.

There are few circumstances which excuse a peace officer's using his pistol. Many of them seem to think they have a perfect right to kill a fugitive, no matter what he is charged with. The shooting of a defenseless person who may only be suspected of committing a misdemeanor is as much murder as it would be for the fugitive to shoot the policeman.

There are circumstances under which a man is justified in shooting another. If a man wakes up in the night and finds a burglar attempting to get into his house, he is justified in shooting him. But if he sees a man run away from his house after being challenged, he has no legal or moral right to shoot him.

A policeman who witnesses a crime committed and has every reason to believe that his own life or that of another is in danger, is justified in shooting the criminal. But he has no right to shoot a man who merely runs when challenged.

Riding on a freight train is not a crime. In most states it has been made a misdemeanor punishable by fine or imprisonment in order that the punishment may deter others from robbing the railroad company of its just dues in fares.

Some counties, notoriously one in Alabama, have made considerable sums in fines of men caught on rail-

road trains without tickets. And the peace officers in that particular county are inspired to make all the arrests they can by the fat fees they pocket, the taxpayers footing the bills as a rule, because the men arrested are usually without funds to pay their fines, which is the main reason they try to ride the trucks.

There have been many men shot by peace officers for attempting to escape when their only offense consisted in riding a freight train. And so long as the public permits this abuse of authority, it will continue.

Riding a train without paying fare is not a capital offense. And if it were, the law does not give the right to a peace officer to become judge, jury and executioner.

The sooner an officer of the law informs himself of his duties in regard to the use of his pistol, the better off will the world be. There undoubtedly have been occasional killings by peace officers which were justifiable, but many of the reported cases are without the slightest justification, legally or morally.

A policeman is permitted to carry a weapon for his own defense and that of the public. He is not expected to practice on every man whom he considers a suspicious character, nor is he justified in using his pistol on every person who attempts to flee when ordered to halt.

The English policeman carries no pistol. He is expected to make his arrests by virtue of the authority which he represents, and if he is unable alone to get his man, he is to summon such help as may be necessary. The result is that rarely is an English "bobby" injured while on duty, and he never has to suffer remorse for having killed an innocent person.

The position of the officer who killed the runaway boy at Seguin is not an enviable one. He is to be pitied as much as his victim.

There were only eleven Americans killed on the Lusitania—not as many as the Lusitanians—and they were mostly stokers and mule drivers. But their lives were just as sweet to them as to playwrights and philanthropists, and they are just as much entitled to the avenging hand of our government.

Another inquiry is now on foot, but we will await the results of the Lusitania inquiry before we predict what will be the outcome of the new one. Perhaps Mr. Bryan's idea of a year and a day is the most acceptable to the Germans of any of our proposals.

The Zapatistas are unable to feed the people in Mexico City and are said to be inciting them to loot. This is another convincing proof of the ability of the lower class of Mexicans to govern themselves.

Felix Diaz, like Mark Twain, says that the report of his being in El Paso is "greatly exaggerated." Inasmuch as he is still in New York, his credence must be given to his statement than to that of the Carrancista agents in El Paso.

The Germans would better have captured that British steamer loaded with wheat, instead of sinking it. It would have furnished a welcome change from the "kartoffel-brod" now in daily use.

THIS IS MY 52nd BIRTHDAY

HON. GEORGE E. FOSS.

Hon. George E. Foss, who was returned to Congress for his tenth term in the elections of last fall, in the Republican landslide in Illinois, is 52 years old today. Like his neighbor, Uncle Joe Cannon, he was defeated at the polls in 1913, after holding his seat continuously for nine terms. Congressman Foss is a lawyer in Chicago, and is prominent in his home city. He was born at Berkshire, Vt., July 2, 1863, was graduated from Harvard and studied law at Union College of Chicago. He was admitted to the bar in 1889, and practiced in the Windy City until he went to Congress in 1895. He is a staunch Republican. His brother, Hon. Eugene N. Foss, who served three terms as governor of Massachusetts, sat in 61st congress on the Democratic side. The Massachusetts Foss had started out as a Republican, but shifted his colors and won some notable political battles. He is now back in the Republican fold and may run for office again. The Illinois brother is prominent in Congress, and was chairman of the House Committee on Naval Affairs for twelve years.

WILL ISSUE IMPORTANT BOOK.

Rev. Father Coma of Beeville is About to Issue Book Treating on Resources Southwest Texas.

Rev. Father Juan Coma, pastor of St. Joseph's church, Beeville, is in Laredo on a business visit in connection with a book which he will soon issue setting forth the advantages of the section of Southwest Texas embraced in the Catholic diocese of Corpus Christi, which comprehensively tells of what the various counties offer to the immigrant and telling of the latent and undeveloped resources of the country.

The book to be issued, neatly bound, is entitled "Catholic Immigration and Farm Guide," is well illustrated and within its covers are the advertisements of prominent firms throughout Southwest Texas. In addition the country is thoroughly advertised by finely engraved half-tone cuts. As a whole the proposed book, a prospectus of which was exhibited at the Times office, contains data and facts of vital interest to the future settlement and development of all of Southwest Texas, embracing all the counties comprising the diocese of Corpus Christi. Father Coma carries with him credentials and recommendations from the commercial clubs of both Beeville and Corpus Christi, and himself is a popular priest well known to the people of Laredo.

METHODS OF RELIEVING POVERTY IN LAREDO.

To The Times:

There are a few facts that have come to my attention from practical experience in helping the poor which I would like to express for the purpose of securing suggestions from other persons as to methods of assisting persons who are in need of food in Laredo.

In order to get the facts before us let us divide the persons who are impoverished, or in a semi-impooverished condition, into classes. We have hundreds of families of refugees from Mexico. Some of these families are able to provide for themselves; others are being supported by relatives or friends who have work and in many cases the poor Mexicans in Laredo are sharing the little that they have with their poorer friends from Mexico; other families are in need of food and work, although I think that the reported persons who are suffering, when we use the Mexican standard as a guide, is small. But if work is not provided soon for hundreds of persons in Laredo we are going to see many persons reduced to extreme distress and starving in Laredo.

Some of these refugees consist of women whose husbands have been killed in the war in Mexico and they have come here because they have relatives in Laredo, others are accompanied by their husbands. During the past month 70 per cent of the persons admitted by the immigration officers consisted of persons in families accompanied by the husband and father, and 18 per cent were single men who were either unmarried or were coming to this country to join their families, or they had left their families in Mexico; and 12 per cent were women either unmarried, or children in families unaccompanied by the husband and father.

Many of these families remain in Laredo and affect labor conditions here. The number of unemployed men and women has been increased. On last Monday morning two hundred men applied for work at the Valdez theater building. These men were not starving, nor were they in need of charity. They prefer to remain in Laredo, even if work is offered elsewhere because they get work occasionally, their families are here, and they expect to get work here when times are better, which they are knowing conditions hope will come very soon. Some of them are suffering but they prefer to get along on reduced rations rather than go to another place.

If the refugees are fed in Laredo the conditions are not going to be improved and this course will attract many undesirable persons to Laredo. It will unsettle all efforts and may bring disease into our city. The benefits which a few will receive will be overbalanced by the injury which many will sustain. Another class of the poor consist of the aged and the children who are without relatives. We have a legitimate channel for charity in Laredo in this class. Our community is already spending sufficient to provide for the wants of these persons but this money is not reaching those who are deserving but those who are the most persistent.

We have also the professional beggar class who visit the stores on Saturdays and on other days and demand that the public contribute toward their support. There are about fifty of these beggars who apply for alms at the stores on Saturdays.

We have also a class of persons who are reduced to poverty because they are temporarily disabled by accident, or sickness. This class offers a profitable investment for charity. Our Associated Charities has done their most successful work in assisting this class of persons to become self-supporting.

We have also a class consisting of persons who are out of work and who are willing to work. They get work occasionally and many of them have lived in Laredo for many years, while others have come here very recently. While some of these men and women have learned trades yet many of those who have come recently from Mexico are unable to do the work that is offered to them. The women are especially helpless, they cannot work either in the field, or in the kitchen and they are out of place in American civilization. They cannot be blamed for having come into the world, nor for the surroundings amid which they have lived in Mexico—they are the victims of circumstances beyond their control. But they need food and they

must either be sent back to Mexico, or be provided with work which they can do, or be fed. Opinions as to the obligations resting on us will vary.

We have also a class of persons who are lazy and will not work, but will beg, or steal. This class is not to be considered as furnishing persons who ought to be fed by the public. If any will not work, neither let him eat." is the advice which the Apostle Paul gave to us.

Let us now turn to consider methods of assisting those worthy of our assistance. At present no organized effort is being made to assist the needy to any extent. Our Associated Charities has a very small income and we have helped only a few cases of extreme poverty. We attempted to assist the refugees on two days but it was impossible to prevent being imposed on because the secretary did not have time to investigate the cases and we discontinued giving aid to that class. We assisted only women and children among the refugees. There were five men who applied for work on the two days we helped the refugees and with one exception each man was willing to work for the food we offered to him and each man worked faithfully, and earned the food that was given to him.

If relief is to be undertaken for the purpose of sifting the worthy from the unworthy and assisting only those in extreme need we must have the assistance of the city officials and the public. Indiscriminate giving of money by the public to beggars ought to be discontinued and the dispensing of charity ought to be placed in the hands of one society which should be free from all racial, political, or religious prejudices. All begging on the streets can be stopped by a city ordinance and the society appointed to provide for the needy should examine the claims of these beggars and send some of them to Mexico, others to relatives in other cities, and a few who are unable to work would have to be given a weekly allowance by this society. The class consisting of persons temporarily disabled would be assisted according to the ability of your society, and the needs of the applicants. A few aged persons and children would have to be provided with food, or homes. The number who are not at present receiving help from relatives is small and would not burden a society.

We have then the class who are out of work but who are willing to work. It is always unwise to give food, or money to that class of persons but they want work, and they are willing to work for the food that is offered to them. Since it is probable that this class will increase in Laredo it is time that we laid plans to prevent these persons becoming objects of charity. I think that I can suggest work for both the women and the men which would not bring them into competition with other laborers but it would require a stronger society than our Associated Charities to carry out this plan of relief. If Associated Charities, or any other organization could help this class of men and women the most practical line of charity work in Laredo would be supplied. Work ought to be provided for those whose circumstances have brought them to poverty and they should be provided with food sufficient for their wants; yet the amount offered should be so small that it would be no inducement for a man to remain on the pay roll of the society if he can find work elsewhere. In making this suggestion I am not giving you a theory but I have tested it and found that it will work, and I should like to see it undertaken on a larger scale sufficient to meet conditions existing in Laredo. Perhaps our Board of Trade will consider this subject of sufficient importance to lead them to investigate and offer some advice and assistance in relieving distress in Laredo. If this plan should be adopted it would then be easy to get rid of the professional beggar and him overbalanced, lost his equilibrium and came downstairs with it. In the fall the young man had his ankle sprained and his leg broken.

—Twice during the past week have trains arrived in Laredo with dead men aboard, and in both instances the unfortunate expired on the trains just before they entered the city. One dead man was on the I. & G. N. train entering Laredo Tuesday morning and another aboard the Texas-Mexican arriving yesterday afternoon.

—Fresh Limes, Phone 445. 6-244f. (Adv.)

—There will be a band concert at Fort McIntosh this afternoon by the Ninth Infantry Band. A good program is announced for the concert and those who enjoy good music should go out to Fort McIntosh this afternoon and enjoy the selections.

—Work on the Bender Hotel annex is fast nearing completion. When the new addition is completed Laredo will have a good hotel in the Bender, and one with a modern appearance in every way. The Spanish court feature in itself will be an attraction for guests and visitors.

—Fresh Peaches, Plums, Cants and Tomatoes. Daily at wholesale. Phone 554. 6-304f. (Adv.)

—The Laredo Cotton Gin Co. plant on the Heights has been purchased by J. M. Garcia, who will move the plant to Aguilares. J. Armengol had bought the gin plant and property and in turn sold the gin to Garcia. Mr. Armengol is now occupying the gin property as his place of business.

—Will W. Gregg, Notary Public, at Times office. 6-54f. (Adv.)

—Moving, moving, moving. Applewhite Transfer Phone 16. 3-314f. (Adv.)

—Attention is called to the advertisement of the Clafin Tire & Rubber Co., which have established business at the corner of Convent Avenue and Farragut street. Claude Clafin is manager, and they specialize in the work of vulcanizing rubber and repairing tires and casings.

LITTLE LOCALS

—Accompanying the excursionists to Corpus Christi tomorrow will be the Ninth Infantry ball team and the Royal Orchestra. Both will play at the seaside. One will meet on the Corpus diamond and the other in the dance hall of the Nueces Hotel. And in both instances they will illustrate that Laredo can play best.

—Asher R. Smith, the newly-elected general attorney of the Texas-Mexican Ry. Co., entered upon his duties yesterday. He is now prepared for a defense of any offense on a pretense that his company may become involved in.

—Delaware Punch flavor unequalled. Try it. (Adv.)

—Joe Moser is out today soliciting contributions to the fund for band concerts on Martin Plaza by the Ninth Infantry Band on Sunday and Monday nights. He reported at noon that the list had been liberally contributed to and that it was assured sufficient money would be subscribed to give concerts on July 4 and 5.

—Many Laredo people will take their official baths in the briny deep at Corpus Sunday and Monday. Some are going with traps to ensnare mermaids and are hoping that they will be crowned with success so that they may be able to exhibit their luck and bring some of the nymphs back with them.

—Fresh Peaches, Plums, Cants and Tomatoes. Daily at wholesale. Phone 554. 6-304f. (Adv.)

—The partition suit involving land and cash in this state and also Mexico, which has been on trial in the district court since Tuesday, is still before that tribunal and up to noon today the taking of testimony was occupying the time of the court. There are several witnesses yet to give testimony.

—Delaware Punch is original, at is not a substitute. (Adv.)

—Cards have been received here announcing the marriage in Corpus Christi on Thursday of Miss Claude Baldwin Caldwell and Mr. Carl F. K. von Blucher, two prominent young society people of Corpus Christi. Both the contracting parties are known in Laredo, where they have a number of friends and acquaintances.

—For self starter work see Yearly at the Citizens Garage. 6-254f. (Adv.)

—Born.—To Mr. and Mrs. S. F. Silver at San Antonio on June 27th a boy, Mrs. Silver was formerly Miss Agnes McKenzie, daughter of Mrs. C. E. Hochheimer of this city.

—Fresh Limes, Phone 445. 6-244f. (Adv.)

—On account of the fact that the regular monthly meeting night came on July 1, a time when most of the members were very busy engaged on their books, etc., the meeting of the fire department failed to materialize last night and was adjourned until a later date, probably next Thursday.

—Gossard corsets, \$2.00 and up. We fit them. Miss M. Salice. 6-124m. (Adv.)

—A party composed of Ed Moser, Aaron Moser, "Ted" Swinson and another gentleman will leave by auto for San Antonio tomorrow, and from there will make the overland trip to Corpus Christi, expecting to reach the seaside city Sunday evening or early Monday morning. The party will remain in Corpus several days.

—Fresh Peaches, Plums, Cants and Tomatoes. Daily at wholesale. Phone 554. 6-304f. (Adv.)

—A young Mexican, an employee of the Applewhite Transfer Co., while engaged in removing some fixtures from Groer & Hamilton's office this morning let a piece of furniture get him overbalanced, lost his equilibrium and came downstairs with it. In the fall the young man had his ankle sprained and his leg broken.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.
I wish every suffering woman would give

CARDUI
The Woman's Tonic

a trial. I still use Cardui when I feel a little bad, and it always does me good."
Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

SOCIAL CALENDAR.

Thursday Night.
Mr. Henry Crumpler honors Miss Ola Applewhite with a box party at the Strand Theatre at half after eight.
Friday.
Band concert at Fort McIntosh at half after four in the afternoon.
Smoker given by officers of Elks Lodge at Elks at half after eight in the evening.
The "Younger Girls" will have a basket picnic and watermelon party at the Chacon tomorrow afternoon. The party will leave town at six in the afternoon in automobiles.

Ships.
I don't know what there is about a ship
That makes you love it so.
Sometimes the sails are summer clouds, sometimes
They're fluffy banks of snow.

And when the ship's far off you feel that it
May turn into a song.
And persons are not in it. Only God
Is sailing it along.
—Louise Ayres Garner.

Society Dips.

To all the devotees of Bella Vista's Swimming Pool, no doubt these words from Old Mother Goose came to mind, when on arrival at the natatorium found all hands busily scrubbing an empty basin.
"Oh, mother dear, may I go swim? Yes, yes, my darling daughter. Hang your clothes on a hickory limb, But don't go near the water."

Complimenting Miss Ola Applewhite.
A party of about forty five young people gathered at the home of Mr. and Mrs. J. A. Applewhite last evening, and from there proceeded to the Chacon. The party enjoyed the old-fashioned "straw ride" to the fullest, while the chaperones motored out. Needless to say the party had a jolly good time and ate watermelons and then some. The chaperones, Mr. and Mrs. Collins of San Antonio, Mr. and Mrs. Chester Nye, Mr. and Mrs. Frank Nye, Mrs. Carlotta R. Warwick, Mr. and Mrs. J. A. Applewhite.

Ladies Parish Guild Entertained.
Miss Clara Nelson was a most charming hostess to the Ladies Parish Guild yesterday morning at half after nine, at the Nelson home. After a pleasant morning of sewing, a delicious two-course luncheon was served.

General Mention.
Mr. Ralph Cook, after a six months' visit to his brother, the Rev. Chas. Cook, left for his home in Syracuse, New York, Monday. Mr. Cook made many warm friends whilst here who hope to see him again before many months pass.

Mrs. G. A. Lillendahl, who came to Laredo in October of last year, and while here, was at Mrs. Woodard's home, left Monday for Lakewood, New Jersey, where she goes to visit her brother, a physician of that place. Mrs. Lillendahl made many friends while here. She was accompanied North by her son, Mr. Alfred Lillendahl, Superintendent of the Electric Light Company in Saltillo, Mexico. Mrs. Lillendahl had not seen her son for many months and was much worried in consequence. He arrived on Sunday, the anniversary of her eightieth birthday, and proved to be the ideal birthday present.

Miss Adela Bruni accompanied the Misses Rodriguez on a motor trip to Encinal. The party left Laredo at six

Mrs. Reed's Recital.
Mrs. Thomas Reed presented her piano class in recital at her home on Farragut street, Wednesday morning, June thirtieth. The work of the class was splendid, their technique good, each one bringing out the melody notes of their numbers, clear and distinct, their understanding and use of the pedals being creditable to pupils of much older years. Both teacher and pupils are to be congratulated on their success. Following the musical numbers the guests were delighted by a reading given by Miss Marcia D. Jarratt. At the conclusion of the programme Mrs. Reed, assisted by the class, served delicious cake and punch.

HOPES TO GAIN ANCIENT KINGDOM

Abdurrazzak, the subject of this photograph, is a descendant of an ancient king of Botan in Kurdistan, who in 1262 was defeated and captured by the Turks. He has been secretary of the Turkish embassy at Petrograd and master of ceremonies at Constantinople and is now in the military service of the czar, hoping to regain the kingdom of Botan.

From Wednesday's Daily.

SOME MEXICAN ABSURDITIES

It is urged by the Mexican factional leaders that there is no hunger in Mexico, yet the testimony, not only of the Americans who have fled from the horrible conditions down there, but of the Mexicans themselves, is that the people have merely what the Red Cross and other charitable inclined Americans have sent in, and this will only last as long as the importations continue.

The revolutionists claim that the trouble was started to give the poor man a chance, and point to the "high" wages they are now paying in the worthless Carranza or Villa currency. Two dollars a day is now the wages paid, but when one translates this into terms of gold, it is seen to amount to about 15 cents! Yet the former rulers paid from 30 cents to 50 cents a day, and food was then plentiful and could be purchased for one-third (gold) what it is now selling for—when there is any to sell.

The revolution was to make the poor man rich, yet among the first to suffer in any community captured by the soldiers of either side are the poor, who lose everything they possess, while the rich still have their landed possessions.

Equal justice to all was one of the "lemons" of the revolution, yet there is no more show for a poor man across the border than there was in the days of the worst tyranny ever suffered in Mexico. The daughters of the working men are forced to become the sport of the roughest of the soldiers, a thing that was unknown in the days of the "cientificos."

Freedom of working was to be granted to all, yet in the greater part of the republic the Roman Catholic churches have either been closed, their priests exiled and their riches stolen by the "redentores," or they are used as barracks and even stables.

Not only have the rich suffered the sequestration of their goods, but the people of the poorer class who have reached the frontier tell of the open, bare-faced robbery of the few household goods they possessed by the "soldiers" and their women. Many of the poor people have reached here with only the few articles of clothing they were wearing—the rest was in the hands of the debauched troops.

While the people are starving, the leaders have stored all over the country great quantities of grain, which they are selling at exorbitant prices or exporting from the country.

The riches robbed from the houses of the wealthy or the "cientificos"—the possession of as little as \$100 now classifies a man as a "cientifico"—have been sold to those who still had a few dollars, and the proceeds have enriched the private coffers of the various leaders.

The abolition of the old system of peonage was to be one of the principles of the revolutionists, yet it is alleged that in many parts of the country the leaders have seized great properties which they are forcing civilians to work for them, paying them in the debased currency which will not furnish them food.

The charge that the aristocrats were immoral in their pursuit of women is forgotten, while the soldiers of every rank make the women in captured towns their legitimate prey, only being careful to see that their victims are not desired by those of higher rank.

Suicide among young girls, something unheard of in former times, is now becoming quite common, the victims of the soldiers' outrages not caring to live in shame.

Really, Mexico is fast becoming "Topsy-Turvy Land," and everything that is considered desirable in point of morality or decency is fast being forgotten. And all in the sacred name of Liberty!

BEATING THE MAILS.

A St. Louis patent medicine concern has discovered a way of beating the postoffice department out of a part of its just dues—for a time, at least. The concern ships a lot of its advertising matter by freight to Laredo, sends the stamps which will carry the separate packages by parcel post, and has the lot mailed out from the Laredo postoffice.

In this way, the Laredo office handles a lot of mail matter which does not pay postage here; the St. Louis postoffice gets the advantage of the sales of stamps; the matter is sent by a short route to the recipients, thus beating the postoffice department out of the proper postage for the stuff sent to a nearer zone. Cute, isn't it?

Of course, it is up to the postoffice department to settle the regularity of this action or the reverse. But it seems like a pitiful scheme to attempt to defraud the local postoffice of its just dues in the sale of stamps for matter mailed through this office.

Some years ago a scheme was devised whereby an unpopular postmaster was boycotted. The postmaster receives a salary based on the business done through his office. This particular postmaster offended some of the merchants, and they devised a plan to humble him by sending away to buy their stamps in another town, thus cutting down his salary.

But this present instance is undoubtedly for the purpose of saving a few dollars by cheating Uncle Sam out of his proper share of the actual business done. Of course, the postoffice does not charge for a longer haul than it actually makes, but the intent to beat the postoffice department out of a part of its dues is shown by the shipment by freight to Laredo of packages which are later to be sent out through the Laredo postoffice, instead of through the St. Louis postoffice.

Many of the patent medicine concerns throughout the country are absolutely dependent upon the people in far-off communities for their patronage. The "medicines" they sell are usually of little value, medicinally, and their actual cost is but an infinitesimal portion of the

retail price. The people who buy these articles in most cases deserve little sympathy, for they buy something to cure their ills that they would not risk feeding to their hogs or cattle, without the advice of a competent veterinarian.

The amount of money paid by the various patent medicine concerns for advertising makes a total of a respectable sum, but the individual accounts paid the newspapers are generally far below the price paid by advertisers in other lines of business. Many of the concerns have their own printing offices, run by young boys or incompetent men and women. In this way the cost of the advertising is cut down to a minimum.

This latest trick, however, is a triumph of parsimonious economy. It shows that the lowest depths of penny-pinching have not heretofore been attained, even in the patent medicine business. And the people to whom the advertising matter comes should feel gratified that their business is so much desired by the concern in question that it has gone the limit in devising a cheap way of reaching them.

Not even the local newspapers have been considered in the matter of getting their advertising in the hands of prospective customers for their nostrums. That would have been a sinful waste of money. When it becomes necessary to practice right economy, the discoverer of this plan has all the advertising experts in the world beaten to a standstill.

Meanwhile, the people who receive their patent medicine advertising by parcel post with a Laredo cancelling stamp on it will know just which concern has gone to the trouble of devising this new scheme to save a penny or two in getting the latest discoveries in medical science to their knowledge.

Huerta told some newspaper men in El Paso: "Some day you will be my guests in my own native land. That is no wild promise on my part. I feel sure that a few months from now I will find us all across the Rio Grande. I will then be in a position to entertain you in such a royal manner that you will never forget it." Let's see; didn't another Mexican general once promise the same thing?

Huerta's followers seem to believe that United States interference will not stop the new revolution. Perhaps not; it did not stop any previous one except Bernardo Reyes' fiasco.

Angeles came all the way from Boston to Washington to tell General Scott that he was not mixed up in the Huerta plots. If he had waited a while he might have had a chance to tell it to the judge.

We are now humbly notifying Germany every time an American vessel sails and just when she may be expected in the war zone. How such news would delight the spirit of the American naval officer who sailed in to Algiers and burned the captured Philadelphia!

ELECT NEW DIRECTORATE FOR TEXAS-MEXICAN RY. CO.

RESIGNATION OF A. C. HAMILTON ACCEPTED THIS MORNING.

On New Board Directors Are A. C. Richter, M. M. Leyendecker and A. M. Bruni as Successors.

This morning the annual meeting of the shareholders and directors of the Texas-Mexican Railway Co. was held at the company's office in this city. The first meeting was that of the old board of directors, where the presentation of the resignation of A. C. Hamilton as a member of the board and also as vice-president and general counsel was received and accepted. This was the final work of the old directorate.

Following this a meeting of the shareholders of the company was held and the meeting proved a most important one, resulting in the election of the following to compose the new board of directors: George W. Brackenridge, T. A. Coleman, A. M. Bruni, A. C. Richter, S. W. DeWolf, M. M. Leyendecker and M. T. Cogley. The new directors are A. M. Bruni, A. C. Richter and M. M. Leyendecker, who succeed A. C. Hamilton, C. M. Fish and R. L. Woodul.

Following the election of the board of directors adjournment was taken until this afternoon, when the board of directors will meet and elect a lot of officers to serve for the ensuing year.

Individual rectifiers are to be held responsible after July 1 for the work heretofore performed by the government gaugers.

THIS IS MY 60th BIRTHDAY

ADMIRAL W. B. CAPERTON.
Rear Admiral William B. Caperton, U. S. N., commander of the first cruiser squadron of the Atlantic Fleet, is 60 years old today. He is completing his fortieth year in the navy, and has done notable work on land and sea in the various branches of the service. His most recent service was in command of the naval forces at Port-au-Prince, Hayti, to protect Americans during the revolution there last February. Admiral Caperton was born at Spring Hill, Tennessee, June 30, 1855. He was graduated from the naval academy at the age of 20. He won promotion to a captaincy in 1908 and was made a rear admiral two years ago. During his long career, he has served in many waters and on many cruises, besides doing notable work for the Coast and Geodetic Survey, serving as inspector of armor and ordnance, and serving as a member of the Lighthouse Board, the Naval Examining and Retirement Boards. Admiral Caperton will reach the retiring age in 1917. He is one of the best-informed of American naval officers.

EVIDENCE THAT CONVINCES

A Twice-Told Tale That Will Carry Conviction to Times Readers.

Over three years ago Mrs. Guernsey publicly endorsed Doan's Kidney Pills. She then told of benefit she had received. Now, with unshaken confidence, she confirms her statement. Tells how passing years have strengthened her faith in Doan's. There's no better test than the test of time. Can any Laredo reader ask for more convincing evidence? Mrs. T. Guernsey, 2016 Farragut St., Laredo, says: "My kidneys were inactive and I suffered from headaches. I also had nervous and dizzy spells. I used Doan's Kidney Pills, procured from the City Drug Co., and they gave me relief. I always advise their use in all cases of kidney trouble."

The above statement was given on November 18, 1911, and on May 17, 1915, Mrs. Guernsey said: "I recommend Doan's Kidney Pills as highly today as ever. I have given them to one of my children, who had weak kidneys and they made a cure." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Guernsey has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)

SOUTH UNVEILS MONUMENT TO DANIEL BOONE.

Cumberland Gap, Tenn., June 29.—As a tribute to Daniel Boone and his associates William Henderson and Richard Calloway, who led the march of civilization westward in the pioneer days of the South, the women of North Carolina, Tennessee, Virginia and Kentucky will tomorrow unveil a monument on the location of old Boone Fort. The governors of the four states are expected to be present at the unveiling and deliver addresses. The Daughters of the American Revolution, who were identified with the making of the Boone trail, will be represented by its regents from the four states. Presiding over the exercises will be Mrs. Lindsey Patterson of North Carolina, Mrs. Robert Gray of Virginia, Miss Mary Temple of Tennessee, Miss Emma Watson of Kentucky and Mrs. William Reynolds of North Carolina.

The monument marks the doorway through which American civilization found its way westward. It was here that Boone and his followers built their log fort to defend the settlers. It marks the western end of the long trail now remarked with tablets by the D. A. R. through Virginia, North Carolina, Kentucky and Tennessee. Boone and his associates began their long march from North Carolina, after they had received the grant of land of the Transylvania Company from King George III.

Many prominent men in the South are descended from Boone and his associates, and nearly all the women who conducted the re-marking of the old trail during the past three years are also descendants.

An elaborate programme has been arranged for the unveiling tomorrow. The ceremonies will begin at 11 A. M. at the site of the monument. After the unveiling and the historical oration and tributes to the pathfinders by the governors and the regents, an old fashioned barbecue will be held, under the auspices of the farmers of the region.

The monument itself is a joint marker representing the four Southern states, with a face for each state. Three of the states, Kentucky, Tennessee and Virginia, meet at a point in the mountain a few hundred yards from the monument, which is situated almost on the Kentucky-Virginia line.

The mountain at this point is crossed by a magnificent modern road. Cumberland Gap is the center of a great expanse of varied scenery and natural wonders. The Pinnacle, towering high above the Gap, is one of

the most rugged peaks in the Appalachian Range. King Solomon's Cave, beneath the Pinnacle, which has been explored for fifteen miles, is believed to be unsurpassed by any known cavern. It was on this historic spot that the Federal and Confederate troops struggled for the mastery of the gateway, and their rifle-pits remain today.

The thrilling story is retold again of Boone's master leadership which wrought the settlement of the fertile lands west of the mountains; of his capture by the Indians; of his many battles and superhuman cunning in overcoming the enemies that lurked around the settlements. It is also told that the daughters of the three settlers, while out in their canoe one day, were captured and carried off by the Indians. Calloway's daughter tore her little white apron in shreds, dropping bit by bit to mark the trail of the captors. In this way the settlers, in pursuit, traced the red men and their captives and rescued the girls after three days.

HOW TO MAKE HIRER MEN WORK HARDER.

In the current issue of Farm and Fireside a contributor writes an interesting little article entitled "Premiums for Hired Men." In the following extract, taken from this article, appear suggestions as to the treatment of hired men:

"When the corn was planted and began to come up early in June we would find that it could not be plowed crosswise because the rows were so crooked. This meant dirty corn and a large decrease in yield.

"I tried the plan of offering the man on the planter \$5 if the rows were straight both ways. That evening I found him out fixing his machine and wires, and have never had trouble since.

"Was this \$5 well invested? "I also promised the man that every pig weaned over 240 would be 50 cents for himself. The consequence was that the man raised and weaned 310 pigs.

"On one cold stormy night there were 52 pigs born. These the man carried in warm boxes into his kitchen, and when he phoned me in the morning he had been up all night and had saved 47.

"I had the pleasure of paying him a bonus of \$35."

The human race is subject to about 1,200 different kinds of disease and ailments, to say nothing of other dangers.

HOW WE DUMP VALUABLE SOIL INTO THE SEA.

In the current issue of Farm and Fireside, the national farm paper published at Springfield, Ohio, a contributor writing under the title "Dumping Soil Into the Sea" tells how middle west farms lose eleven tons of earth a second. Following is an extract from what this writer reports:

"Eleven tons of soil is carried into the Gulf of Mexico every second by the Mississippi River from its immense drainage district. This material amounts to 346 million tons every year, and is equal to the surface soil, 6 2/3 inches deep, of 346,000 acres."

HOW GERMANY THINKS THE WAR STARTED.

In the July American Magazine Edyard Lyell Fox, correspondent in Germany for that publication, writes a highly interesting article entitled "God Punish England" in which he reports the intensity of the feeling in Germany against England. In connection with this subject he quotes Major von Herwarth, a German officer, who tells in part as follows what he regards as the origin of the trouble:

"England is jealous of our commerce. We do not have week-end parties. We work. We become too powerful in trade. We disturb the British peace of mind, therefore Britain must be rid of this disturbance. We saw with regret that our relations with England were becoming unsatisfactory. There was no rhyme or reason why we should not have come to a good solid understanding. We tried for it hard, but in vain. England turned to France and Russia, and it was a remarkable coincidence that ever since the Triple Entente was complete our neighbors in the east and in the west adopted an attitude against us that grew more and more hostile. We knew that the struggle was coming and we were prepared. But not the British policy, we respect the neutrality of Belgium—this from the nation that made her empire by gobbling up little countries all over the world! You see, we cannot think of such things and remain calm. Germany is only one thousandth's part of the surface of the globe. (The entire area of the globe, including all oceans, is about one thousand times the area of Germany. The entire area of all the land on the globe, including fertile territory, deserts, steppes and the polar regions, is less than three hundred times the area of Germany—Editor.)

"We have worked hard on this soil and we live well. And by our hard work we are rivaling England's commerce, which means that we must go."

ANGELES DECLARED HE WAS NOT A PARTY

DISCLAIMED ANY CONNECTION WITH ALLEGED PLOT OF HUERTA TO INVADE MEXICO.

By Associated Press.

Washington, June 29.—General Felipe Angeles arrived here today and conferred at the war department with Brigadier General Hugh Scott, chief of staff of the army. Because of Scott's thorough acquaintance with Mexican affairs and his intimate acquaintance with Villa, the conference attracted attention. Angeles said he came to deny any participation in the Huerta plot.

Increase Villa Garrison. El Paso, Texas, June 29.—It was announced today that the Villa garrison at Juarez will be increased soon. Extra precautions are being taken to prevent raiders from crossing from the American side in the vicinity of Juarez.

Negotiations in Progress.

Washington, June 29.—Carranza advised the state department today that General Gonzalez has stopped fighting outside Mexico City pending negotiations with the Zapatistas for a settlement which will spare the city. Meanwhile, Carranza says, American refugees from Mexico City are arriving at Gonzalez' camp which is south-east of the city.

Removing Zapata Archives.

Galveston, Texas, June 29.—Carranza advises here today that the Zapata archives are being removed from Mexico City preparatory to the withdrawal of the Zapata troops.

RUSH FOR NORTH DAKOTA LAND.

Williston, N. D., June 29.—The 3,000 acres of alfalfa land near this town, which is today thrown open for entry, has attracted a heavy rush. A greater part of the land newly opened to settlement is along the Missouri River and is natural alfalfa land. The first rush for the choice sections takes place today, and squatters upon the land previous to today will be considered as trespassers and will gain no rights. Claims will be received until July 29.

RECEIVERS OPERATE 30,500 MILES OF RAILROAD.

St. Louis, Mo., June 29.—Railroad history has repeated itself, insofar as trouble is concerned. At present there are approximately 30,500 miles of American railroad in the hands of receivers. On June 30, 1896, 30,475 miles were in receivers' hands. With the exception of the year 1908, there has been no year since 1896 in which as much as 4,000 miles of railroad was in the hands of receivers. An interesting tabulation of the similarity of the situation today with that of nineteen years ago has been compiled:

June 30, 1896.	
Northern Pacific	4,533 miles
Union Pacific	1,836 miles
U. P. subsidiaries	5,900 miles
Atchafalpa	2,000 miles
Baltimore & Ohio	2,073 miles
Phila. & Reading	884 miles
and others	884 miles
Total mileage	30,475 miles
Par value of securities, \$1,795,500,000.	

June 30, 1915.	
Rock Island	8,328 miles
St. Louis & San Francisco	4,747 miles
Wabash	2,514 miles
Pere Marquette	2,322 miles
Chicago & East Illinois	1,282 miles
Inter. & Gt. Northern	1,106 miles
Cin. Hamilton & Dayton	1,015 miles
and others	1,015 miles
Total mileage	30,500 miles
Par value of securities, \$1,815,900,000.	

Mr. Hamilton Tenders Resignation. Mr. A. C. Hamilton, who for the past five years has held the important office of vice-president and general counsel for the Texas Mexican Railway Company filed his resignation to such offices this morning, effective at once. The resignation was filed with President M. T. Cogley of the railway company and will be acted upon at a meeting of the Board of Directors of the road that will be held tomorrow.

By Associated Press.

London, June 29.—The Times correspondent wires that the Russian armies are neither beaten nor disheartened. That they claim the Germans lost 380,000 in the Galician campaign and the Austrians almost as many. The Russians believe they can retreat and advance again indefinitely, caring little for the moral effect of the loss of towns so long as they are constantly weakening their enemies and preventing such a trench deadlock as exists in the West.

Notifying the Germans.

Washington, June 29.—The United States has adopted the practice of notifying the German admiralty of the time of departure of every passenger ship sailing under the American flag and the approximate hour it will be in the war zone.

Killed in German Army.

St. Louis, Mo., June 29.—Lieut. von Heinrichshagen, a St. Louis insurance man who was a captain of volunteers in the American army during the Spanish American war, has been killed fighting in the German army.

Drove Russians Back.

Berlin, June 29.—The official report today says that north of Lemberg the German-Austrian forces are now on Russian territory. Gen. von Linzigen has driven the Russians across the Gnila Lipa river north of Halicz. It is understood from yesterday's announcements that the Germans expected to make a stand at this river.

French Made Gains.

Paris, June 29.—The official report today says that the French made gains last night north of Arras, but lost some advanced posts in the Vosges. In the Argonne forest there was heavy fighting with torpedoes and hand grenades.

Detroit, Mich., June 29.—A meeting of the service department managers of automobile firms will be held here today, with a view to formulating a standard repair parts policy that will benefit the owners of motor cars.

LAST DRINKS IN ALABAMA TOMORROW.

Montgomery, Ala., June 29.—At 11 p. m. tomorrow the state of Alabama goes dry. Under the provisions of the new law passed in January over Governor Henderson's veto, the local option system is discarded, and the entire state is made "dry" territory. This is the second time the state has gone dry. In 1909 prohibition was enacted, and the Carmichael law was in force for two years. Then came local option, under which only eight of the 67 counties voted to license saloons.

Besides the ban on saloons, Alabama inaugurates restricted regulation for the transportation of liquor in the state. No transportation company after tomorrow can deliver more than one quart of liquor a month to any one person in the state. Gov. Henderson refused to sign this bill, also.

THE WORK HE DID SHOOTING DEMOCRATS

In the July American Magazine a United States Senator writes a very interesting article entitled "A Senator's Mail." Among the curious letters he has received is the following from an indignant pension claimant: "Why hasn't my pension been allowed? I spent three of the best years of my life shooting Democrats, and it is time something was being done for me. See the President about this without fail."

NO MORE MEXICANS WILL BE ARRESTED

HUERTA'S FOLLOWERS BELIEVE THAT INTERFERENCE WILL NOT STOP THE NEW REVOLUTION.

By Associated Press.

Washington, June 29.—Rumors that citizens of at least one of the European belligerent countries were among the foreign backers of the alleged Huerta revolution were heard here today. There is no confirmation. United States District Attorney Camp in San Antonio, in charge of the federal district where the Huerta hearing will be held, announced today that no more arrests of Mexicans were expected in his district until after the Huerta hearing Thursday and perhaps not then. At least 15 former Mexican generals have been in El Paso within the past few days. Huerta's followers seem to believe that United States interference will not stop the new revolution.

AGED VETERAN DEAD.

NEW YORK'S \$71,000,000 BOND ISSUE TODAY.

New York, June 29.—City securities to the amount of \$71,000,000 bearing interest at the rate of 4 1/2 percent will be offered for sale by Comptroller of the city at 2 P. M. today. The issue consists of \$46,000,000 of fifty-year bonds and \$25,000,000 of fifteen-year corporate stock. A portion of the stock will be reduced annually from 1916. This is the first sale of this kind made by the city under its new pay-as-you-go policy.

GOES TO SYSTEMATIZE MEDICAL STUDY IN CHINA.

Baltimore, Md., June 29.—Dr. William H. Welch, pathologist of Johns Hopkins University, will leave tomorrow for China to take part in the work of systematizing medical education in the Orient. He will be joined there later by Dr. Simon Flexner, and other experts of the Rockefeller Institute. Dr. Frank J. Goodnow, president of Johns Hopkins and constitutional adviser of the Chinese republic, is now in China, and will be in close touch with the medical party.

MISSISSIPPI RIVER TO COMPETE WITH ATLANTIC PORTS.

Chicago, June 29.—That the manufacturers and shippers of the middle west can successfully compete with the Atlantic Coast by building big wharves and terminals on the Mississippi River and putting new fleets to work along the big watercourse is the opinion of the big watercarriers on river improvements and water facilities which opened a meeting here today. The opening of the Panama Canal created a new condition in transportation which the Atlantic Coast ports were well equipped to grasp quickly. As a result, the middle-west has failed to benefit, and in the opinion of some, has been an actual loser in the new form of competition. Plans for the building of big terminal accommodations at the shipping points along the Mississippi from St. Paul down to New Orleans, and the inauguration of new fleets of steamers and barges will be discussed at the meeting. Never has the Upper Mississippi been boomed so strongly as at present. Facilities for handling big business down the river and through the Canal are sadly lacking, for the rail lines have been handling the middle-west products. Now that the Atlantic Coast ports have direct water service with the Pacific, the middle west is at an advantage in the matter of rates and accommodations for water service. Representatives of all the big shipping points along the river and its tributaries are attending today's meeting, and important action is expected.

Some Fine Water-melons.

The first fine water-melons to arrive in Laredo this season reached here yesterday. They are Tom Watson's and Alabama Sweets and were received by John Bruni. He has two car-loads and the smallest will weigh 25 pounds and the largest 60 pounds. Mr. Bruni has them on sale at his Hidalgo street store and a guarantee goes with every melon sold out of this lot. They must be first class in every respect or you cannot have them.

PAIRED MILMO RIFLES.

While the report of the Chief of the Division of Militia Affairs of the War Department is not at all complimentary to the Texas militia as a whole, its statement of the condition of the Milmo Rifles, officially known as Company 1, 2d Texas Regiment, is all that could be desired by the friends of the organization.

The report classifies Co. 1 as "very good" in its rating, only the band and Co. M of the Third Regiment receiving the same rating of all the other Texas troops. The report says: "Company 1 is commended for its splendid records and condition of federal property. It furnishes an example in this regiment which could well be followed by other organizations."

Co. 1 is one of the five companies of the regiment which are recruited up to the minimum strength—66 men—and while at the regular inspection the company showed 26 men absent, all of them were "absent on leave," and most of the absentees were either away on business or at school, etc. One of the men was absent in Mexico buying cattle when the inspection was held.

While little attention was paid in the other organizations to instruction in the use of the rifle, the Milmo Rifles have been pretty well instructed in this work, particularly as they have had some target, practice and gallery practice, which is neglected in other organizations.

The way the records are kept is a credit to Capt. E. M. Matson, as the responsibility for keeping up this work has rested upon him personally. Co. 1 has also been commended upon the condition of federal property in its hands, and especially the rifles, which have been kept in a good condition.

There is reason for self-gratulation in the report commending this Laredo organization. There has been little encouragement given the Milmo Rifles during the past few years, but when they are needed they are usually on hand and in efficient condition for all work which demands their attention.

During the alarm caused by the big fire in Nuevo Laredo and the subsequent rumors of impending trouble the Milmo Rifles did some effective street patrol work, as well as efficient guard duty at the time of the battle of the first of the previous year. The men are given no encouragement by the citizens of Laredo. In other places the militia company is helped in many ways to become a more efficient body by the active efforts of the citizens in their behalf. There should be more support given the Milmo Rifles if the citizens want to see a more efficient company here.

In other cities the militia companies are given balls, dinners and other social recognition of their efforts. There has been made to feel that they are recognized as a part of the national defense, and they are taught to respect the uniform that others respect.

In Laredo there is no allowance made for the up-keep of the armory; no social recognition of the soldiers; no friendly approval of what they have accomplished. When the Washington's Birthday celebration rolls around they are asked to parade, and when there is a necessity for their services they are called upon; that's all.

There should be more recognition of the sterling merit of the local militia company. Not only do the soldiers of the regular army deserve the friendly co-operation of the citizens of Laredo, but the militia soldiers are entitled to it. They ask nothing of the people, which may be the reason why nothing is ever done for them. But many a man who hardly knew that we had a militia company here will preen himself over the flattering encomiums that a United States war department official has seen fit to give the Milmo Rifles.

SEPARATING THE COLLEGES.

Among the amendments to be voted on July 24 is one that should appeal to all the people of Texas. It is for the separation of the Agricultural and Mechanical College from the University of Texas, and the emancipation of the A. & M., removing it from its present status of a hanger-on of the state University.

The amendment calls for the equitable division of the lands of Texas set apart for the university and its branches. It places the two institutions under their separate governing boards and makes each independent of the other.

The time has come to recognize the fact that the two institutions are incompatible when united but each supplementary of the other when separated. There are thousands of students who will never attend the

University but who would become worthy graduates of the A. & M. if the state were not so parsimonious in its provisions for housing the students at both institutions.

The amendment provides for the removal of the old law prohibiting appropriations by the Legislature for buildings at the University. This alone is a good reason for adopting the constitutional amendment. The shacks that are now disfiguring the campus of the University were made necessary by the cheese-paring provisions of the old law.

At the same time it would make possible the construction of necessary buildings at the A. & M. and would give those desirous of taking the courses at either college a decent place to live while pursuing their studies.

Not only have the authorities of both institutions pleaded for a change in the law which would permit the construction of needed buildings, but such a proposition has been a part of the platform of the Democratic party for several years past, as well as being endorsed by every great association in the state.

There is no reason why the A. & M. should be subordinate to the University any more than the University should be a branch of the A. & M. Both have their own spheres of usefulness and each is as distinct from the other as are any two institutions of learning in the country.

Based upon a constitutional provision that dates back many years, the money to run the A. & M. has to be taken from the fund for the University, and neither can appeal to the legislature for needed funds for improvements.

As a result, the work of the A. & M. is not as effective as it ought to be, while at the University the students are dependent upon such provision for their housing as can be made from the annual income of the funds for the University, in which are included the funds for the A. & M.

There are many attempts now-a-days to create new offices and commissions. Many of them are merely for the purpose of supplying situations for the friends of the party leaders, while none of them is absolutely necessary. But while we are figuring on new ways of spending the people's money, we are making no provision for the increased demands upon our institutions of learning by our rapidly growing population.

This is primarily an agricultural state. This should be recognized in all our projects for public instruction, and the Agricultural and Mechanical College, as well as the College of Industrial Arts for girls, are handling this problem of proper instruction for the masses as well as our parsimony will permit them.

Divorce the two great schools. Give each of them its proper share of the funds, and let the legislature supply such funds as are needed without depending upon an antiquated provision of law which has outgrown its usefulness.

The same day that Carranza announced he would protect foreigners in Mexico City came the news that his chosen lieutenant, Pablo Gonzalez, had been disastrously defeated. Poor old failure! He succeeds in nothing but fooling a part of the people part of the time.

As an example of nothing to worry about, the news of the Red Cross sending soap to Monterey strikes us as about the limit. But perhaps the folks who have to do their own washing have appealed for it.

Huerta's agent says the general has not started for Texas, but that he is on his way to the Panama convention. But he will undoubtedly come later to Texas, the place all will eventually come to.

The German socialists have finally come to their senses and have issued an appeal for peace. This getting back to first principles is something one might have expected from what are usually considered the greatest thinkers in Europe.

The news is that the Germans are sending heavy guns to the Bzura river in Poland. We wonder if it is anywhere near B'gosh Corners.

The Japanese officers who committed hara-kiri rather than fall into the hands of the Germans were wise in their generation. They did not want to change from their vegetarian diet to one of sausage and brat-wurst.

HOLDERS OF SCHOOL LAND.

General Land Office.

Austin, Texas, June 25, 1915.
To the Editor:—Permit me, through your columns, to advise those of your readers who have not paid their last year's interest due on their school land that it will be necessary for them to pay by about the middle of August if they desire to prevent a forfeiture of their land. This is necessary on account of the importance of getting the money into the state's treasury before the close of the present school year on August 31st in order to help prevent a deficit in the school fund apportionment. No one should wait for a personal notice before sending in his payment.

Yours truly,
J. T. ROBINSON,
Commissioner.

DEATH OF WILLIAM A. STONER

Had Served Both as Police Officer and Deputy Sheriff and Was Noted for His Work in Both Places.

William Albert Stoner, one of Laredo's and Webb county's best and most faithful peace officers, answered the last call at his home, 918 Houston street, last night at 11:45 o'clock and the Grand Chief of the Universe summoned one of his most intrepid and fearless servants from the realm called earth. He met death as fearlessly as he had faced danger in the pursuit of his duties as a peace officer both of the city and county, and when Will Stoner closed his eyes in eternal sleep a vacancy was caused that will be hard to fill. As a peace officer he was noted for his keenness in which he worked of suppressing crime and bringing transgressors to the bar of justice he had done his duty well, and when he cast aside the mantle of mortality and faced his Master, he was met with the approving greeting, "well done, thou good and faithful servant."

He had served as a city police officer and as a deputy sheriff alternately for many years, and this morning when City Marshal Brennan learned of his death he uttered a commendation that bespoke the esteem in which he was held when City Marshal Brennan said: "Will Stoner was a real peace officer, intrepid and fearless and through his clever work as an officer and detective many criminals have been brought to justice. He was one of the best peace officers Laredo or Webb county ever had; his place will be hard to fill."

Mr. Stoner was a native of Corpus Christi, where he was born in 1880, and when a baby moved to Laredo with his parents. In his boyhood he learned the saddler trade and became a proficient artisan in that line. Later, when a young man, he gave up this vocation and became a police officer under City Marshal Eugene Yglesias. That was at a time when the true mettle of men was thoroughly tested, and Will Stoner met the requirements. He served under Mr. Yglesias and later under City Marshal Brennan. When Amador Sanchez was elected sheriff of Webb county he cast about for a good officer and his choice fell on Will Stoner. He served until Mr. Sanchez left that office last November, and then City Marshal Brennan, realizing his worth, appointed him as a plain clothes man, in which capacity he was serving when he died.

Will Stoner, while as deputy sheriff and police officer, went after some hard criminals, but he never flinched in his duty and always brought his men to the bar of justice. He never forgot a face, hence he had a faculty of quick recognition that worried the wrongdoer, for once his discerning eye met a man that was wanted it was all up with the transgressor. Eight days ago Stoner was taken ill with fever. Sunday afternoon the attending physician realized the end was near and notified his family. Last night he passed away peacefully. His funeral takes place this afternoon at 5 o'clock. Besides his two brothers, Charles Stoner of El Paso, and Edward M. Stoner of this city, he is survived by his wife and six children. All of these have the sympathy of their many friends in their bereavement.

THIS IS MY 42nd BIRTHDAY

DR. ALEXIS CARREL.

Dr. Alexis Carrel, head of the Rockefeller Institute for Medical Research, who has been making observations of war surgery conditions in France, is 42 years old today. Dr. Carrel has made a great name for himself since he came to America from France ten years ago. He won the Nobel prize three years ago for his successful experiments transplanting organs of the human body and suturing blood vessels. Besides conducting extensive experiments, he finds time to write considerably, and he is one of the leaders of the younger school of surgeons. Dr. Carrel was born near Lyons, France, June 28, 1873, was educated at the University of Lyons, and completed there his medical work. After a period of duty in French hospitals and instruction, he came to America in 1895. Four years later he joined the Rockefeller Institute, where his work has attracted wide attention. Dr. Carrel is enthusiastic over opportunities in America for advancement of science. He is now a member of the leading medical societies here. The Rockefeller Institute sent him to France last fall, when the war broke out in Europe. He conducted extensive inquiry into modern war surgery along the battle front.

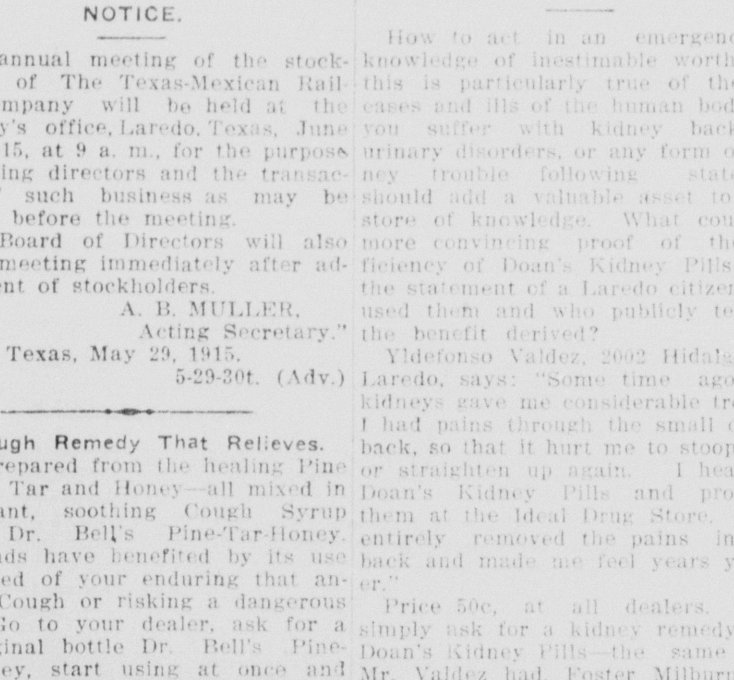

THE PROPER COURSE.

Information of Priceless Value to Every Laredo Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Laredo citizen who used them and who publicly tells of the benefit derived?

Ydefonso Valdez, 2602 Hidalgo St., Laredo, says: "Some time ago my kidneys gave me considerable trouble. I had pains through the small of my back, so that it hurt me to stoop over or straighten up again. I heard of Doan's Kidney Pills and procured them at the Ideal Drug Store. They entirely removed the pains in my back and made me feel years younger."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Valdez had. Foster-Milburn Co., Preps., Buffalo, N. Y. (Adv.)

Camel CIGARETTES

are delightfully smooth, fragrant and refreshing. They can't bite, parch or leave any unpleasant cigarette after-taste.

Camels are blended choice Turkish and choice Domestic tobaccos, more to your liking than either kind of tobacco smoked straight!

Compare Camels, puff by puff, with any cigarette in the world. Test your taste, then you'll understand why men everywhere prefer them. No premiums or coupons, because cost of tobaccos blended in these cigarettes prohibits their use.

CAMELS sell 20 for 10c. If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), sent postage prepaid. If after smoking one package you are not delighted with CAMELS, return the other nine packages and we will refund your dollar and postage.

HUERTA'S NEW REVOLUTION CREATING SOME INTEREST

AND UNITED STATES AUTHORITIES KEEPING EYES OPEN.

Former Huerta Officials Who Have Been Making Homes in Laredo Disappeared for Other Parts.

The purported revolution headed by Victoriano Huerta appears to have been nipped in the bud in its incipency, if reports from El Paso are true. The papers have been full of reports of the progress of Huerta during the past few days on his way from New York to El Paso, where he was scheduled to appear at a Junta tomorrow when a fourth revolution was to be launched in poor old revolution-wrought Mexico. This old patriot, as he styled himself, was de-throned some months ago and had to hike to save his neck, and now he is supposedly going back to raise more hordes in the revolution-crazy republic.

But whether or not there is really any import to the reported plans of Huerta cannot be ascertained definitely at this time. Maybe it is only a revolution on paper and without sanguinary consequences. However, a peculiar feature in connection with the so-called new revolt so far as it concerns this part of the country is the fact that some time ago there were quite a number of ex-federal or Huerta officers in Laredo who were watching developments in Laredo who were watching developments in Mexico from this point of vantage. Some were here up to a few weeks ago, but have mysteriously disappeared and only one of the three or four Huerta generals who were here at intervals now remains here. Their friends say they are in San Antonio or El Paso, presumably the latter place.

It appears that the United States authorities at all points on the border as well as Laredo are keeping their eyes on the movements of the former followers of Huerta, and if the old man pulls off anything unexpectedly he will have to "go home." But now that Huerta has reached and is in the hands of the law, or kept under strict surveillance by U. S. officers, there is no probability of him doing anything rash or abrupt without the authorities at least having an inkling of what is brewing.

Great Play at the Strand.
This evening at the Strand Theatre will be presented the greatest play that was ever put on stage or screen, "Damaged Goods," a play that in the most forcible manner drives home the real facts of everyday life that could never be so convincingly portrayed in literature or upon the legitimate stage. It is a moral play and one that appeals to every thoughtful man and woman. It will be shown today and tomorrow at the Strand.

MANY ATTEND BAND CONCERT.

Martin Plaza Packed to its Capacity Last Evening With People to Hear Music and Enjoy Breeze.

An immense crowd of people thronged Martin Plaza last evening, where a concert was given by the Banda Social, which is furnishing music there each Sunday evening. The invigorating breezes that prevailed and the sweet strains of melody combined to make the evening a most delightful one and all enjoyed the occasion to the fullest extent.

Some fine selections were rendered by the band last night and many visitors to Laredo were out to enjoy the concert.

NUEVO LAREDO IS IN STATE OF PREPAREDNESS JUST NOW

AND FORCES OF SOLDIERLY OVER THERE ARE BUSY FORTIFYING.

Lines of Trenches, Barbed Wire Fences and Entanglements Encircle Town on Every Side.

That Nuevo Laredo is being put in a state of preparedness for something is vividly illustrated to those who visit the burg across the way and note what the soldiery of that city is employed in doing these hot summer days. And the extent to which these operations are being carried out is something to attract attention and cause suspicion that the Carrancistas have an idea that something is expected soon—either an attack from the Villistas or an attempted invasion by the so-called followers of the new Huerta revolution.

For some days past energetic efforts have been made on the part of the soldiery over there toward completing the work of putting in entrenchments (holes to hide in and shoot from) and barbed wire entanglements about the town. At this time Nuevo Laredo is encircled by two lines of trenches, two strings of barbed wire fences and meshes of barbed wire entanglements that will be hard to penetrate if an assault is planned on that place. The fences confront each line of trenches and the entanglements are so arranged that an enemy would encounter much difficulty in penetrating them to reach the city proper.

While the work of preparedness has been going on for some time now and considerable has been done to make Nuevo Laredo impregnable to an invasion from the east, south or west, nevertheless operations continue so that nothing will have been left undone in the way of fortifying or putting the town in a proper state of defense, leaving no vulnerable point that might be considered a vantage loop for an attacking party from the directions named. The garrison at Nuevo Laredo is comparatively small at this time, but in case of news of a sudden advance of Villistas or Huertistas several hundred troops could be rushed there from Lampazos, Villadama and other places.

VALUABLE LAREDO REALTY HAS BEEN CHANGING HANDS

DEALS INCLUDE SITES FOR HANDSOME NEW BUILDINGS.

Corner Lot Purchased by Bank for \$12,000 and Alexander Paid Good Price for Adjoining Lots.

During the past few days some very important land transfers have been filed for record with the county clerk, some of them involving valuable property in the heart of the business section of the city which were disposed of at handsome figures. Included in the deals made recently and filed for record with the county clerk were the lots on and near the corner of Lincoln street and Flores Avenue on which the handsome new home of the Laredo National Bank and the two modern brick buildings to be erected by I. Alexander will be erected. The following deeds have been filed with the clerk since the last report published in the Times:

Mrs. Annie Thaison to Laredo National Bank, lot No. 1, in block No. 34, W. D. Consideration, \$12,000. This is the corner lot on which the bank building will be erected.

A. M. Pelton to I. Alexander, lot No. 2 and 49 8-10 feet front of lot No. 3, in block No. 34, W. D. Consideration, \$10,000. Also A. M. Pelton to I. Alexander, 5 8-10 feet front, full length, off east part of lot 3, in block No. 34, W. D. Consideration, \$10 etc. These are the lots on which the two handsome business houses will be built by I. Alexander.

M. M. Pratt and L. A. Reiser to Mrs. Velma B. Vidaurri, (three deeds), blocks 1152, E. D. Consideration, \$770.

C. O. Swedberg to C. A. Swedberg, lots Nos. 1 and 2, in block No. 605, E. D. Consideration, \$200.

T. A. Bunn to Blas Peña, block No. 693, E. D. Consideration, \$600.

MUST STOP SPEED AND NOISE.

Complaint Made From Fort McIntosh Authorities of Fast Running and Unnecessary Noise.

The Times is in receipt of the following communication from Adjutant Hixon of Fort McIntosh and it would be well for the transgressors to heed the warning contained in the short message, as noise is an annoyance and the speeding is dangerous to pedestrians and others out there.

"The authorities of Fort McIntosh have been annoyed considerably of late by several automobiles and motorcycles from Laredo opening their cutoffs and running at an excessive speed over the post roads.

"It is hoped that this practice will be discontinued as otherwise it will be necessary to impose restrictions affecting all who use the post roads for the purpose of attending the Band Concerts or for enjoying a pleasant ride."

Get Rid of Your Rheumatism.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhard, Homer City, N. RATHER CONSPICUOUS.

One of the largest ready-made clothing houses in London received not long ago from the country a letter, the substance of which was, "What is the proper dress for a groom in the afternoon?" The clerk who opened the letter naturally referred the inquiry to the livery department. The head of that branch, in turn, dictated a brief reply, something like this: "Bottle-green coat, fawn-colored trousers, with top boots, silk hat with cockade. Our prices are as follows, etc."

A week elapsed, and the big store received a plaintive little note. "I always knew it was expensive to get married, but can't you suggest something a little less elaborate."—Tit-Bits.

HUERTA AND OROZCO ARRESTED IN EL PASO

THE DEPARTMENT OF JUSTICE CLAIMS KNOWLEDGE OF FAR REACHING PLOT OF REVOLUTION.

By Associated Press.

Washington, June 28.—Inside details of a plot to restore the Huerta regime in Mexico began coming out here today. Besides Huerta and Orozco nearly twenty other Mexicans and some Americans are under surveillance for their alleged part in the failed plot. The state department is trying to find the real backers of the new revolution. It is believed that it was to have the financial backing of prominent American interests.

It was disclosed that several weeks ago Huerta offered his services to General Iturbide, one of the Mexican exile colony in New York, and also asked the United States government if Huerta would be persona grata to the United States if he participated in Mexican affairs. Washington answered no. Iturbide declined the offer of Huerta's services. Officials say that Iturbide afterward accepted a modified offer of Huerta's aid. The officials believe that Huerta intended to take active charge of border affairs.

Huerta and Orozco Arrested.

Washington, June 28.—General Huerta and Pascual Orozco, Jr., were arrested at El Paso yesterday at the instance of the Department of Justice, which has been keeping Huerta under espionage for the past three months. While the Carranza and Villa agencies in the United States are jubilant over the arrests, which they had demanded for some days past, the state department announced that it was entirely on the initiative of the United States department of justice that the arrests were made. The charge was inciting revolution in a foreign country.

OPTION ELECTION IN KENTUCKY

Ashland, Ky., June 28.—A wet and dry election is being held today in Boyd County. The "wets" and the "drys" each petitioned the court in the matter, the liquor interests opposing a test at the polls at this time.

CATHOLIC EDUCATORS CON- VENE.

St. Paul, Minn., June 28.—The national convocation of the Catholic Educators' Association opened here today. Archbishop John Ireland welcomed the educators who came from all parts of the United States. Some 500 bishops, priests and sisters are present as delegates, representing Catholic universities, colleges, parochial and private schools. The convention will discuss matters of religious education, and will emphasize its views that the religious element is necessary in education. The programme extends for four days, and the principal sessions are to be held in the Cathedral.

WANAMAKER-MUNN WEDDING.

Philadelphia, Pa., June 28.—The marriage of Miss Marie Louise Wanamaker, grand-daughter of John Wanamaker, and Mr. Gurnee Munn of Washington, will take place here today at St. Mark's Episcopal Church. Rev. Elliot White, rector of the church, and Rev. John W. Williams of Chelsea, N. J., will officiate. The bride will be attended by her sister, Mrs. Arturo de Heeren. The bridesmaids will be Misses Marie Brown Warburton, Edwina Elkins Bruner, Katherine Herman Kremer, Gretchen Clay, Mary Alice Clay, all of Philadelphia, and Miss Frances Moore of Washington. The groom will be attended by his brother, Charles A. Munn of Washington.

Following the ceremony there will be a reception at Lindenhurst, the residence of the bride's grandparents, Mr. and Mrs. John Wanamaker. The nuptials unite two of the most prominent families in the East. The Wanamakers and the Munn families are wealthy.

Some Damage by Collision.

Last night shortly after eight o'clock a jitney and a private automobile came together in a head-on collision at the turn of the corner on Flores Avenue and Lincoln street. Neither had blown their horns for the corner and it appears one was to blame as much as the other. The tire on one wheel of the jitney was cut in two by the impact, while the lamps on both autos were bent in and distorted some. The impact was a sudden but light one, otherwise the damage would have been more extensive.

By Associated Press.

Warsaw, June 28.—Artillery is reported as causing seven-eighths of the casualties among the Russians fighting the Germans. Infantry plays little part in the German attacks. The new Skoda shells, weighing more than a ton, 17 inches in diameter, and sinking 20 feet into the earth before exploding kill everyone within 150 yards. The heat of their explosion is so terrific that it melts rifle barrels. The gases from the explosion rip the clothing off the soldiers' bodies. These shells are largely an Austrian invention.

For the Open Door.

Peking, June 28.—The United States warned both China and Japan on May 15 that the United States would not recognize any agreement which endangered the "open door" policy.

Sank British Steamer.

London, June 28.—A German submarine yesterday sank the British steamer Indrini from New York in St. George's channel.

Favorable German Reply.

Washington, June 28.—A favorable reply by Germany to the last American note on submarine warfare is indicated in today's state department advices from Ambassador Gerard at Berlin. These advices are the first definite official word on the character of the forthcoming German note.

The German officials, says Ambassador Gerard, are eager to give a favorable answer, but say they cannot make concessions which would impair the effectiveness of the submarines. The Germans are trying to find some method which will safeguard the lives of American passengers.

Russians Regroup Forces.

St. Petersburg, June 28.—The officers of the Russian general staff state that they now have achieved a regrouping of their forces, necessitated by the German Galician campaign, and are ready to effectively oppose a further German advance in Galicia or southern Russia.

Germans Crossed Dniester.

Berlin, June 28.—Army headquarters announces the capture of the town of Halicz on the Dniester river, and also that the Germans have crossed the Dniester along the entire front.

London, June 28.—The British in Africa attacked the fortified German port of Bukoba on Lake Nyanza June 25, sinking many boats and destroying small arms and guns.

Got French Aeroplanes.

Berlin, June 28.—The Germans took two enemy aeroplanes on the French Alsace front.

TRIAL OF JERSEY PROSECUTOR.

Cape May, N. J., June 28.—The trial will begin this morning at the Country Court House of Prosecutor Matthew Jefferson, indicted for malfeasance in office. Judge Daly of Middlesex County will preside at the trial.

COLLEGE REGATTA MAY REDUCE COURSE TO 3 MILES.

Poughkeepsie, N. Y., June 28.—The annual rowing classic, the Intercollegiate regatta, will take place today on the Hudson River off this city. It is freely predicted that this will be the last event over the 4 mile course, and that the stewards will reduce the course to three miles, beginning next year. The University of Wisconsin crew withdrew this year, but will enter next year, it is said, if the three-mile course is adopted. Many rowing authorities believe the strain is too great on the college boys in a four-mile contest.

Although Cornell rules favorite in today's race, the lookers-on are watching closely for a spurt from the dark-horse, the Leland Stanford crew from California. Columbia is also rowing to last season's form, which brought her the honors a year ago. Syracuse is represented by a strong crew, and Pennsy is likely to wrest the laurels from her rivals. The Junior varsity is scheduled to start at 4:15, and the freshman race at 5 p. m., both over the 2 mile course. The big varsity race is set for 6:15, over the full four miles.

Notice to the Public.

At the southeast corner of the market building on the outside you will find fish, oysters, boiled crabs and all articles usually kept in a delicatessen, such as lunches of boiled ham, Swiss, beef and American cheese, corned beef, lunch tongue, pickled herring, salmon, sardines (American, French and Norwegian), in oil or tomato sauce. Short orders of all kinds served promptly. Fresh butter milk daily. The best French drip coffee in Laredo.

CARRANZA DEFEAT IS NOW CONFIRMED

REPETITION OF HORRORS PRECEDING MADERO'S OVERTHROW IS FEARED AS A RESULT.

By Associated Press.

Washington, June 28.—Further confirmation of the defeat of the Carranza army advancing on Mexico City was brought to Vera Cruz from Mexico City by American travelers and received by the state department today. These advices said that Carranza is rushing troop trains to Mexico City and that fighting probably is still going on in the outskirts of the capital. A repetition of the horrors which preceded Madero's overthrow is feared.

DENY REPORTS OF MOVING.

By Associated Press. Fort Worth, Tex., June 28.—Farmers Union officials deny yesterday's newspaper reports that they will move the union headquarters from here to Houston.

JURY UNABLE TO AGREE.

By Associated Press. Wichita Falls, Tex., June 28.—The jury in the case of Judge E. W. Fry, which had been out since Saturday night, reported today that they were unable to agree. They were sent back for further deliberation.

MINNESOTA BANKERS MEET.

St. Paul, Minn., June 28.—Annual convention of the Minnesota Bankers' Association opened here this morning, with bankers present from all parts of the state. The working of the new Federal Reserve law will be discussed.

\$3,000,000 ATHLETIC CLUB.

Chicago, June 28.—Members of the Chicago Athletic Association are today registering their formal vote on the proposal to erect a new clubhouse, the entire project representing an investment of \$3,000,000. The membership has already informally adopted the plan. The new structure will be 18 stories high.

CURIOUS REASON FOR CLAIMING A PERSON.

In the July American Magazine a United States Senator writes an extremely amusing article entitled "A Senator's Mail" in which he tells about the strange personal requests which his constituents make. He says that out of the hundred and fifty letters a day which he receives, at least a third are requests for personal favors. In the course of the article he publishes a number of these remarkable letters, one of which follows:

"I need a pension, but the Department won't give me one. I was engaged to be married in 1852. The man went away to war, and I married him after the war. He died in 1885, and two years later I married a man who had just come from England, and he died last winter. The Department won't give me a pension on account of my first husband, because they say I wasn't his wife during the war. I was engaged to him, and considered that I belonged to him during the war just as much as though I had been his wife. If I had more pull, I know they would have given me a pension."

Will be Married Wednesday.

The marriage of Mr. Edward Staben of this city and Miss Ruth Fitch of San Antonio will take place at the home of the bride in that city on Wednesday afternoon and on Thursday morning for Laredo, arriving here on Thursday morning to make their future home at Bella Vista. Oscar Staben, father, and Miss Josephine Staben, sister of the groom-to-be, left for San Antonio today to be present at the ceremony.

ANOTHER FIASCO.

The arrest of Victoriano Huerta and Pascual Orozco, Jr., at El Paso, where it is alleged they were proceeding to start a counter revolution in Mexico, many prove to be the "nipping in the bud" of another revolution as the Villa and Carranza agents declare, but it is more likely that it will turn out to be another mare's nest, similar to many that have been unearthed by the secret service men on information received from the Mexican agents of one party or another for several years past.

The department of justice is stated to have been watching Huerta for the past three months. Why, no one can imagine, save that he settled down in New York after declaring his intention to remain in this country only thirty days.

Of course, it would have been possible to deport him under the undesirable alien clause of our immigration laws, but the people who sold him real estate and those who expected to sell him more were not inclined to let such a plum be dragged from their grasp.

The statement of the old man that he was stopping off in El Paso to see his daughter on his way to the fair at Frisco seems to have met with incredulous disbelief on the part of the officials, but his prompt release on a \$15,000 bond would indicate that they do not feel too certain of their ground in arresting him, as nothing would be more easy than to forfeit such a ridiculously small bond and get away were he so inclined.

The fact that he would find Mexico a decidedly unhealthy place right now does not seem to have occurred to the sleuths who accuse him of a desire to cross the river and start something. And of course, he would not be so foolish as to attempt to conduct a revolution from the American side.

The Villistas would want nothing easier than to find him in their clutches in Juarez or near by. And, as one of them said, it is a pity he was arrested before he crossed the river, as he would have been eliminated from the Mexican problem as soon as he reached Mexican territory.

In fact, there is nothing to prevent him from entering Mexico—save the ardent desire of both factions to get their hands on him. Of course, that is a mere detail, and it is better to have him in this country, where he may spend some of the money he is accused of having, than to be hung or shot in Mexico.

The vague announcement that "prominent American interests" were to back the new revolution may be accepted for what it is worth. Of course, there are American interests which are willing to back anything that would promise a change in present conditions. They are perhaps the same interests which backed the Madero revolution and then threw Madero down because he did not "come across." And then, again, they may be the same interests which backed Huerta himself during his brief term of power.

But if the department of justice is in possession of any facts which would prove that a counter revolution had been planned and is in further possession of facts which would prove the connection of any "American interests" with the leaders and fomenters of such a revolution, why does it not proceed against those guilty?

The American people are tired of the sneering allusions to the American interests who are charged with backing the revolutionists, violating the law by such actions, and the failure to punish the guilty parties.

It might appear to some that the influence of the alleged "interests" is sufficiently strong to prevent their punishment, which is a reflection on the American people, and one that the Mexican newspapers have not hesitated to make.

At any rate, if there was a violation of the law, let all concerned suffer the just punishment for their evil deeds.

MAKING MORE JUDGES.

The proposition to increase the Texas supreme court, which now consists of three members, to five justices, with an increase of salary from \$3,500 to \$5,000 each, seems to meet with the approval of those who believe that the work of the court will be expedited by an increase of its personnel.

But will it? As the case is at present, no one justice does all the work on any case. The justices consider the case together, and sometimes all of them are required to work on a case to arrive at a decision. As it is, there are frequently two decisions rendered in all the important cases—a majority opinion and a minority opinion.

It is difficult to believe that increasing the number of the justices would make the work any more expeditious, and it might be the case that there would be a sufficient difference of opinion to make the decision practically valueless.

A majority of three justices can now render a decision which is more apt to be the correct decision than one given by a majority of five justices. And each dissent from the decision tends to further weaken the value of the decision when reviewed by a superior court.

Only in one way could the addition of two judges help in the work of the court—in writing the decisions. But even that is no longer the time-killing work that it was when a judge painfully wrote his decision by hand. Nowadays the majority of the judges everywhere dictate their opinions, which they have prepared before work of writing them is saved for more important duties.

It is true that most of the states in the Union have at least five justices in their higher courts—some of them having as many as seven. But in all probability there is little more celerity in the work of other state supreme courts than there is in that of Texas.

The delay in handing down de-

cisions is not attributable to the lack of justices to consider the cases. Many of the cases are thrashed out by the entire court, and there would be no saving in time were there five, or even seven or nine, justices instead of the present three.

Every added official of our state means an added burden upon the tax-payers. There is much more demand for trial judges in Texas than there is for judges of reviewing courts. There are many districts in the state at present where the trial judge finds it almost impossible to clear the docket within the time allotted. Hence many cases go over to another term, to add to the burden of the new docket.

The addition of two new justices, with the increased salaries proposed, would not only mean the addition of \$14,500 to our salary list. It would mean additional stenographers, additional cost of conducting the court, and the total would amount to several thousand dollars more each year, with perhaps little added efficiency to the taxpayers.

Whenever a legislature meets, there is always a demand for the increase of the state's official personnel, without considering the swarm of any new offices which are sought to be created. This is natural, as many of those seeking official positions are able to convince some of the legislators that the new offices are needed.

But we are prating of economy; we fail to furnish the University and the A. & M. with the buildings necessary because of their steady growth; we neglect the state's eleemosynary institutions and postpone the payment of our just indebtedness in the penitentiary system, while we seek to create new offices which we can do very well without.

By all means vote for the increase of the supreme court personnel, if you are convinced that the public interest demands it. But do not forget that the increased cost would pay some of our debts; would enable us to look after the state's dependents in a better fashion. Don't be stingy. But above all, be honest before being extravagant.

Germany is said to desire to give a favorable answer to the American note, but doesn't know how to keep up the submarine warfare and at the same safeguard Americans. That's easy; stop torpedoing ships that have Americans aboard, and attack only the Swedish and Norwegian vessels.

The Carranza defeat at Mexico City is said to presage a repitition of the horrors which preceded the downfall of the Madero government. But the Carrancistas still deny their defeat, which is almost as horrible as anything else that could happen.

Japan and China have both been warned that the United States will not recognize any agreement which endangers the "open door" policy. That ought to settle the question, as neither of the two countries could get along without American recognition.

The description of the dreadful Austrian bombs which the Germans are using reminds one of the terrible effects of the French gas bombs that killed men and froze them into a life like attitude, even preserving the bodies for several weeks. It also sounds to us like—

Another British steamer from New York was sunk by a German submarine. So far as can be learned there were no American passengers aboard, which takes it out of the realm of our consideration.

A VOICE THAT WAS STILLED.

No Response Came to the Demand of the Conductor for "Tickets" for the Final Passage Was on.

"Tickets, please." No response. "Tickets." Again came the demand of the conductor. Thus, sentimentally is described what took place aboard the L. & G. N. train in the early hours of this morning. There was no response to the demand of the conductor, for the voice of the man who was asked for his ticket was stilled. He had given his ticket, entered within the portals of the coach of everlasting life and aboard the phantom train glides along an even track, crosses the bridge that spans the abyss of the unknown and wends its way along the eternal shore into the station of eternity; his soul was making its journey. He had already taken his last ride—it was the gratuitous journey that awaits us all when the time for existence in the known world is closed.

Aboard the incoming L. & G. N. train to Laredo this morning sat in his seat a man in whose body the spark of life was extinct. After the train had passed the station of Enchanted the conductor made his ticket-collecting rounds. He asked this man for his ticket, but he got no response. Later he investigated and found the man was dead, presumably the heart had suddenly failed to perform its functions and the machinery of life had stopped. The conductor was awestricken and walked away. When the train reached Laredo the body was taken to the Conveyer undertaking parlor and there the dead awaits identification. In his pockets was found a letter from a man in Monterey to a man in Millett, but the name of the dead man does not appear in the introductory words. He is a man of about 30 years, of good appearance. Perhaps some friend may come along and identify the body and it will be buried otherwise than in the potter's field.

FALSE PROSPERITY.

The French and English armies have placed an order in Fort Worth for 30,000 horses to be used in Europe. The average life of a horse at the front is ten days. Vast numbers have been killed and the demand increases, owing partly to a shortage of meat. These orders represent a dangerous source of profit. Unusual prices are being paid and there is a temptation offered the farmer to sell in excess of his ability to do without. Unless sales are discouraged, Texas will soon lack enough animals to work its fields; then the pinch of hard times will be much harder than now, and it will be too late to find a remedy. Somebody ought to start a movement to keep Texas horses at home.—Corpus Christi Caller.

THIS IS MY 57th BIRTHDAY

MAJ. GEN. G. W. GOETHALS.
Major General George W. Goethals, the man who built the Panama Canal, and first governor of the Canal Zone, is 57 years old today. During the past year, the engineer of the "big ditch" has seen it placed in successful operation and fortified. A great World's Fair at San Francisco commemorates the event, and Congress has honored the canal builders. On March 4th last President Wilson signed the bill extending the thanks of Congress to Goethals and those who aided him, and promoting him from Colonel to Major-General in the Army. It is said that the general will soon retire, to become identified with other big engineering projects. General Goethals was born at Brooklyn, N. Y., June 29, 1858, and was graduated from the Military Academy in 1880. He joined the engineering corps, and was chief of engineers during the Spanish War. His first canal work was at Mussels Shoals Canal, on the Tennessee River. He was sent to Panama in 1907, and was chief engineer until the completion of the canal in 1914. He has been honored by many engineering and scientific societies, and is immensely popular personally.

PEOPLE WHO WANT TO GET THINGS FREE.

In the July American Magazine a United States Senator writes an interesting article about the remarkable mail that he receives. Following is an account of one of the most amusing requests that he ever received:

"The American people are at all times anxious to secure anything, no matter how worthless, provided it will cost them nothing. Every day's mail brings its requests for seeds and Government publications. I have long admired the frankness of the man who wrote to me:

"Please put my name on the mailing lists for anything that the Government gives away free."

APPLICATION MEXICAN LAW TO ESTATE OF DECEASED MAN

WAS SHOWN IN TESTIMONY IN CASE IN DISTRICT COURT.

Partition Suit Being Tried Before Judge Mullally Has Some Interesting Features to It.

An important civil case in which the application of the Mexican law to the status of the matter in litigation is being brought out, and where in one Mexican federal judge (Gonzales de Nuevo Laredo), was called to the stand to testify to the Mexican law as it pertains to descent and distribution, is now on trial in the district court in this city. It is a partition suit wherein the land, money and cattle involved in the controversy are located in Texas, the land in Jim Hogg county. Pleading under the provisions of the Mexican law the plaintiffs contend that personal property descends according to the law of the country where the deceased relative lived and died without reference to where the personal property is located.

The partition case on trial in district court here before Judge Mullally and referred to in the foregoing, is that of Flores et al vs. Ramirez et al. The case was called yesterday forenoon and continued until 2 o'clock in the afternoon, when a motion for continuance was made by the plaintiffs and overruled and the case went to trial shortly thereafter. Involved in the litigation are 14,000 acres of land in Jim Hogg county and about \$65,000 in cash and cattle. The decedent to whom those belonged was a resident of Mexico and for many years mayor of the town of Guerrero, Mexico, and a member of the legislature of his state. He died in Mexico. He was a man without children and died intestate. His widow is the defendant in the case and is claiming all the property of her deceased husband. The plaintiffs comprise the nieces and nephews of the deceased Ramirez and seek a partition of the land, money and stock of the deceased. The money belonging to the estate is deposited in a Laredo banking institution.

The trial of the case will probably be concluded this afternoon. Mrs. Ramirez, the defendant and claimer of the estate is represented by T. C. Mann, while the plaintiffs are represented by Hicks, Hicks, Teagarden & Dickinson of San Antonio.

Here attending the trial as witnesses are a number of people summoned for the purpose from Jim Hogg, Zapata and Webb counties, and a number of others who come from various places in Mexico.

DETAILED TO PHILIPPINES.

Major H. P. Howard of Fourteenth Cavalry Notified of His Assignment to Foreign Service.

The Times is in receipt of a letter from Major H. P. Howard of the Fourteenth Cavalry, who is visiting his family at Corpus Christi, in which he states he has been detailed in the quartermaster's corps and ordered to Manila, P. I. "I tried to stay with you people, but I am due for foreign service and have to go," says Major Howard in the letter.

Continuing the letter says: "I like Laredo and leave with much regret. I sail from San Francisco August 5. My family will remain in Corpus Christi until about July 28, when they will accompany me to San Francisco. I will leave Fort McIntosh early in July and join my family in Corpus Christi."

Major Howard is very popular in Laredo and with the military officials and all regret to learn of his assignment, but wish him good luck and a pleasant stay in the Far East.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

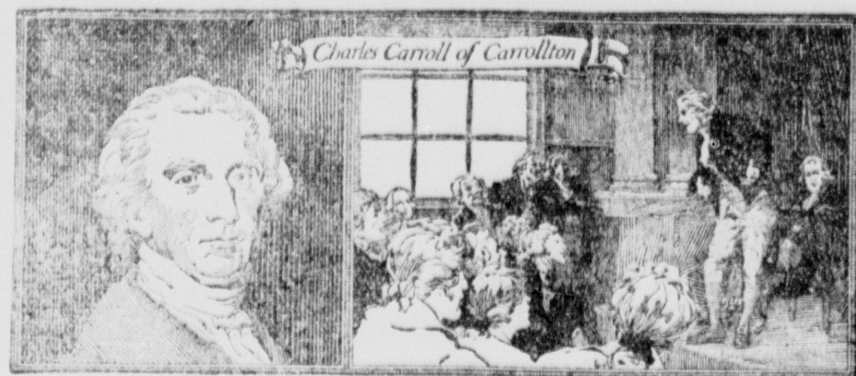

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 10.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Charles Carroll of Carrollton, Maryland "Father of Religious Liberty in America"

HISTORY proves, to their eternal honor, that the Catholics were the first in America to advocate the freedom of all sects to worship at any shrine they chose to bend a knee. Of all the cavaliers of Maryland, none were more noble and none adored Liberty more than Charles Carroll, who, with his kinsman, Archbishop John Carroll, strove for the hereditary rights of mankind to practice Civil and Religious Liberty. Carroll was one of the richest and most learned men in the Colonies and when he proudly affixed his name to our immortal Declaration of Independence he courted the confiscation of his vast estates. A bystander facetiously remarked, as he did so, "There goes a few millions." He was elected to the National Convention which adopted the Constitution of the United States, but illness forbade his attendance. His cousin, though, Daniel Carroll, signed our National Law, which forever guarantees to Americans Civil, Religious and Personal Liberty.

Carroll's manners were easy, affable and graceful; in all the elegancies of polite society few men were his superiors. His hospitality was nothing short of royal and he was a lifetime user of light wines and barley brews. He died in his 95th year, the last survivor of the signers of the Declaration of Independence, and was looked upon with reverential regard by rich and poor alike. Fifty-eight years ago Anheuser-Busch launched their great institution and have always brewed honest beers—the kind the illustrious Carroll loved to quaff. Day by day their famous brews have grown in popular favor, until 7500 people are constantly required to keep pace with the public demand. Their great brand BUDWEISER, because of its quality, purity, mildness and exquisite flavor, exceeds the sales of all other beers by millions of bottles.

NIGHT GUARD MANEUVERS

WERE HELD BY MILITARY

SHOWED HOW QUICKLY A PRO-VOST GUARD COULD ACT.

Point of Concentration Selected and From This Place All Outlying Parts of City Guarded.

The night guard maneuvers carried out by detachments from the Ninth Infantry Camp on the streets of Laredo last night excited some interest from some people and the movements of the squads of soldiers in the carrying out of the night maneuvers elicited much interest from those who beheld the movements of the soldier boys. Their place of concentration was on Jarvis Plaza and from there the arms of the guard were extended to various parts of the city.

It was merely maneuvers of a pro-vost guard character and demonstrated fully the capability of the soldiers to quickly put the city such a strong guard and in keeping in touch with any emergency that might arise that those who saw the movements last night were fully confident that Uncle Sam has his soldiery trained down to that point of efficiency that any exigency that might arise would meet their support in quick and systematic order.

While the maneuver tactics were being carried out on this side of the river some alarmist got busy and conveyed the information to Nuevo Laredo that "something funny was going on among the American soldiers" and this caused a flood of inquiries to come from the Mexican city. They had their satisfaction in learning that it was merely guard maneuvers and nothing else. This undue excitement was probably caused by the appearance of part of the guard in the vicinity of the bridge, which was along their route of maneuvers.

FUNERAL OF WILL STONER.

Large Number of Friends of Departed Officer Followed Remains to Last Resting Place Yesterday.

The funeral of the late William A. Stoner took place from his home on Houston street to the city cemetery yesterday afternoon at 5 o'clock and was largely attended, the attendants comprising a number of the city police officers and men from the sheriff's department, former co-workers of the efficient officer who expired Sunday night.

During the day yesterday many beautiful floral tributes were sent by friends to the home as an attestation of the high esteem in which the dead officer was held by those who knew him best through the efficiency of his work. The procession from the cemetery to the home was a long and sorrowful one.

BECOMES MILITIA INSTRUCTOR.

Sergeant Bolding of Machine Gun Company of Ninth Infantry Transferred to Maine For Duty.

A deserved promotion with added responsibility to one who can justly acquit himself of the honor has come to Sergeant R. L. Bolding, a member of Company A, Ninth Infantry, and a member of the machine gun company of that company, who has been assigned to duty as instructor of militia with headquarters at Bangor, Maine, where he goes for service for a period of four years.

Sergeant Bolding and his wife will leave the Ninth Infantry camp on July 5 bound for their new station. Besides coming in the way of a promotion for recognition of valuable service, the new duties incumbent on Sergeant Bolding brings with it an increase of pay of nearly \$100 per month. Bolding's many friends congratulate him on his added laurels and good luck and wish him all kinds of success in his new field of labor.

MANY SAW "DAMAGED GOODS."

Play Endorsed by Pulpit and Medical Profession Witnessed by Large Crowds Monday Evening.

Crowded houses last night witnessed the production of the seven-reel drama, the great sociological novel and play, "Damaged Goods." Those who saw the production had a deep impression made on them, for it is something that is productive of a great moral effect, interspersed with a lesson in circumspection and deliberate care. "Damaged Goods" is in harmony with the requirements of eugenics and shows what carelessness can do. The denouement of the play is a tragic one, but it is retribution following remorse. Yesterday afternoon and last night the play was produced for "men only," today it will be thrown on the screen for the benefit of "women only."

Notice to the Public.

At the southeast corner of the market building on the outside you will find fish, oysters, boiled crabs and all articles usually kept in a delicatessen, such as lunches of boiled ham, Swiss, brick and American cheese-corned beef, lunch tongue, pickled herring, salmon, sardines (American, French and Norwegian) in oil or tomato sauce. Short orders of all kinds served promptly. Fresh butter milk daily. The best French drip coffee in Laredo.

—Attention is called to the advertisement of the conductors and engineers of the Texas-Mexican division in relation to the Saturday special excursion in today's Times. They have secured the coaches usually used by the weekend excursion to the coast and assure all accommodations on the special excursion train which leaves Saturday afternoon at 2 o'clock.

—Lieutenant Sturtevant, the manager of the Ninth Infantry base ball team, states that he has his men in tip top shape for the games with Corpus next Sunday and Monday and is expecting to get the "goat" of the Sand Crabs in the entire three games. Strong batteries will be with the team and they expect to establish a good record at the seaside.

—The following deed has been filed for record with the county clerk since last report: Salome Trevino and wife to Rafael and Sabas Flores, lot No. 1, in block No. 250, W. D. Consideration, \$450.

—The partition suit involving a lot of land and money and some stock in this county, and in which the claimants are all citizens of Mexico which was called for trial in the district court here yesterday, was still on before that tribunal at noon today. It will probably consume the entire day. The taking of testimony was still in progress up to noon today.

—Postmaster Worsham is kicking against the actions of a St. Louis medicine concern in taking advantage of the postoffice department and his office by shipping stamped matter here by freight for distribution to nearby points. It is done to get the lower parcels post zone rate and it is also depriving the Laredo postoffice of a lot of stamp sales.

—It is reported that a shipment of approximately one million 30-30 cartridges for the constitutionalist army were crossed to Nuevo Laredo yesterday. The ammunition supply is to be distributed proportionately among the Carranza troops in Nuevo Laredo, Villadama, Lampazos and Monterey.

—Arthur Roach, the little son of N. C. Roach, fell into a tub of hot water at the family residence, 1701 Iurbaide street, and was seriously scalded. He is now resting easy after treatment.

THE RUSH OF PROVISIONS TO THE INTERIOR OF MEXICO

CONTINUE UNABATED THROUGH THE PORT OF LAREDO.

Long Processions Are Formed by the Vehicles Employed in Carting Goods From This City Daily.

A scene presented by twenty drays and wagons in a continuous line from the foot of the international bridge to a corner several blocks distant loaded with sacks of flour, potatoes, coffee and other provisions was a spectacle witnessed by many in the vicinity of the bridge yesterday afternoon. All the conveyances were laden with provisions destined for Nuevo Laredo, at which place the merchandise was reloaded onto cars at the station over there and shipped to Lampazos, Villadama and Monterey. Most of the goods were for merchants in those places and were being shipped after purchase here.

These kind of scenes are of daily occurrence now, as there is considerable merchandise and provisions being purchased in Laredo, while a large quantity is also arriving here in carload lots from distant cities and in each event it is invariably unloaded here and carted across the river.

Parties arriving here recently from Monterey and intermediate cities report that the merchants have generally fully replenished their stocks of goods which had become depleted during the cessation of railway traffic, and that at this time there was no apparent suffering in Monterey due to a lack of food supplies. All purchases being made here by Mexican interior merchants are for cash and payable in gold and no goods are delivered in Nuevo Laredo unless paid for in advance. Carranza money is not acceptable in payment for merchandise purchased here, or elsewhere, for its fluctuating tendency and seemingly valueless prices is too much like gambling for American merchants to handle the almost worthless lithographed paper.

—Cooling, delicious, satisfying. Delaware Punch. (Adv.)

Funeral of Mrs. S. L. Brooks. The funeral of Mrs. S. L. Brooks took place from the home of W. N. Young yesterday afternoon and was largely attended, funeral services at the home and grave being conducted by Rev. C. W. Cook of the Episcopal church, with prayer service also at the home by Rev. BOTH 'FREIGHT AND PASSENGER MOVEMENTS ARE EXTENSIVE.

Provisions in Large Quantities Are Being Rushed to Monterey and Many People Are Traveling.

Train service on the Constitutional Lines of Mexico between Nuevo Laredo and Monterey is now established on a thoroughly regular schedule and trains are running on time between the two places, serving all intermediate places likewise. The train leaves Nuevo Laredo each morning, reaching Monterey in the afternoon, while the train which leaves Monterey each morning reaches Nuevo Laredo same afternoon; except on rare occasions now it is belated.

Attached to every outgoing train from Nuevo Laredo these days are from five to ten carloads of express matter composed principally of provisions or general merchandise for merchants in the places all the way from Nuevo Laredo to Monterey. In this manner quick service is afforded and there is no immediate probability of another food famine in Northern Mexico, judging from the vast quantities of supplies that are daily leaving Nuevo Laredo for the southward.

On the other hand, the exportations from Mexico are unusually light at this time, and only occasionally do a few cars of importations come to this side from Nuevo Laredo. The passenger lists on all trains, both those to and from Nuevo Laredo, are extremely heavy, representing in the main people on flying business trips both ways. From Monterey the greater number of the arrivals represent business men coming to the Texas border and thence going northward to place extensive orders for supplies in the markets of the state, while some are sending their orders to the East for immediate filling.

At any rate the resumption of traffic on the Constitutional lines has been the means of affording much relief to the depressed conditions existing in the northern part of the republic, or rather the Monterey and Nuevo Laredo sections, and the people are taking advantage of the opportunity and providing themselves with necessities for the immediate future.

By using one bottle of it was entirely cured." For sale by all dealers. (Adv.)

PEARSALL WILL CELEBRATE.

In Advance of Glorious Fourth People of That City Will Have Grand Celebration and Barbecue.

Invitations have been received in Laredo announcing a grand celebration and barbecue in Pearsall on Saturday, July 3, when the Glorious Fourth will be observed in appropriate style the day before the event proper, which falls on Sunday this year, arrives.

The celebration will be held in the open, under spreading trees, and the program of festivities announced consists of band concerts, athletic sports, races of various kinds, oration by Hon. John A. Valls, base ball and a grand dance at the opera house as a fitting finale.

Death of Infant Son.

Mr. and Mrs. William Schneider have the sympathy of their many friends in the sad bereavement which has befallen them in the death of their son, William Schneider, aged one year and three months, who died at their home, 806 McLellan Avenue, last night at 9:10 o'clock. The little fellow had been ill the past thirteen weeks and his death was attributed to hemorrhage of the stomach. The funeral takes place this afternoon at 4 o'clock from the family home to the city cemetery.

Lime-Loss in Tuberculosis

In the Journal of the American Medical Association (January 17, 1914) was the following: "It has been many times stated that in tuberculosis or in the pre-tuberculous stage an increased amount of calcium (lime) is lost, both in the urine and feces. In fact, a demineralization has been thought to be a forerunner of the development of tuberculosis."

"Forced feeding of tuberculosis patients and the enormous amount of eggs and milk once given such patients are not now considered advisable by a large number of physicians who are specializing in the treatment of pulmonary tuberculosis."

If tuberculosis is due to a loss of lime from the system, the success of Eckman's Alternative in the treatment of this disease may be due, in part, to the fact that it contains a lime salt so combined with other valuable ingredients as to be easily assimilated.

Always we have urged users of Eckman's Alternative to attend strictly to matters of food. In addition to rest and proper diet, some effective remedial agent seems to be needed, and in numerous cases of apparent recovery from tuberculosis and kindred throat and bronchial affections Eckman's Alternative has supplied this need.

It does not contain opiates, narcotics or habit-forming drugs, so it is safe to try. Your druggist has it or will order it, or you can get it from direct.

Wednesday Night.

Mrs. John Applewhite entertains with a watermelon party this evening for Miss Olla Applewhite of San Antonio.

Real Friends.

That term, "a friend" is frequently misused. The people we can borrow from Need not be friends; Acquaintances with whom We oftentimes associate Are seldom friends; The neighbors who return our pleasantries Are not our friends.

In books we often find That rare relationship Because The physical is out of sight, And Mind Is free and open to receive The noble thoughts Which Omnipresent Mind has there expressed Through mortal man.

In life we find a few— A very, very, very few— Good friends, Who not alone are glad To lend us aid In things material. But also, most unconsciously Allow The essence of their own divinity To radiate and mingle with our own. —Pamela McDonald.

Artistic Recital.

Mrs. D. F. Anderson presented her voice and piano pupils yesterday morning at half after nine to a number of most appreciative friends of the pupils. As usual, both voice and piano pupils did especially good memory work and played and sang with great ease. The piano pupils' work was characterized by clear, round technique as well as musical understanding and feeling. The voice pupils delighted by purity of tone, clear enunciation and artistic interpretation. Mrs. J. A. MacDonald presided at the punch bowl in her usual gracious manner at the conclusion of the program. Those present were: Mesdames Ryan, Bell, Hall, Morton, H. A. Austin, Mackin, E. B. Brewster, De la Garza, W. T. Hill, Sadder, J. C. Martin, Hazelrigg, Yearry, Shelby, MacDonald, Rev. and Mrs. Cook, Misses Ellen Ramsey, Vera Lang, Aline Hamilton, Sirois, Anderson, Gray, E. Sanchez and others.

Mrs. Moore Entertains.

Mrs. J. R. Moore chose a swimming party to honor her guests, Mrs. Fred H. Baird and Mrs. Elizabeth N. Dew, on yesterday afternoon. After a most pleasant hour at the pool the party motored to the beautiful Moore home on the Heights, where a salad and ice course was served at small tables on the delightfully cool and spacious gallery. The personnel included: Mesdames Baird, Dew, Harris, Cogley, Austin, Halsell, Sirmeyer, Hiatt, Hodges and Hall; Misses Eva Austin, Evelyn Moore and the hostess.

Lawn Fete and Dance.

The Puster home was the scene of a charming lawn fete and dance last evening given by Mrs. Puster, honoring Miss Dorothy Dix of San Antonio. The lawn made an ideal setting for the dainty frocks of the younger crowd of girls. Progressive conversation was the feature of the evening. A large pinata was also broken and the prize fell to Miss Dolly Richter. At the conclusion of the evening's entertainment, a delicious repast of tamales and coffee was served. The guests were: Mr. and Mrs. John Applewhite, Mr. and Mrs. Brewster, Mrs. Dix of San Antonio, Mrs. M. E. Pinder, Mr. and Mrs. Puster, Misses Dorothy Dix, Miriam Werner, Ruth Scratchley, Estelle Elstetter, Dolly Richter, Courtney Slaughter, Miriam Gray, Pauline Miller, Gladys O'Brien, Ouida Valentine; Messrs. Carlos Richter, Alden Muller, Tom Nye, Randall Nye, Willie Sames, Edward Brewster.

General Mention.

Mrs. D. F. Anderson left today for San Antonio, where she goes to resume her studies in singing with Madame d'Aucuna, who as a former operatic success is a fine exponent of leading opera roles. Mrs. Anderson will be away all summer, returning the middle or latter part of September.

Mrs. Fred H. Baird and little son, James, who have been the guests of Mr. and Mrs. J. R. Moore for the past two weeks, left today for San Antonio, where they will spend a few days with Lieutenant Baird at the home of his father, Mr. C. A. Baird, after which they will leave for Yellow Springs, Ohio, to visit Lieutenant Baird's sister, stopping en route in New Orleans for a few days' visit.

Mr. A. C. Moore, the father of Mr. J. R. Moore, left today for his home in Roswell, New Mexico, after an extended visit in Laredo.

Captain Fred Brown left today for Fort Thomas, Kentucky, where he goes to join Mrs. Brown and his daughters. After a short leave, Captain and Mrs. Brown will leave for their new station in Porto Rico.

Cards have been received from Mrs. H. Stow Garlick who is visiting her mother, Mrs. Heekin, in Cincinnati, Ohio, telling of the delightful time she is having. Mrs. Garlick will not return before the latter part of July, as she expects to visit in Chicago on her way home.

Misses Katherine and Marjorie MacGown returned to San Antonio

PASTOR QUILTS, THOUGH EXONERATED.

Philadelphia, June 30.—Rev. Dr. J. Beveridge Lee, rector of St. Paul Presbyterian Church, gives up his pastorate tomorrow, having resigned after a long church row. The 10 elders of the church are also out. The Presbytery, before which the trouble was threshed out, exonerated Dr. Lee of charges made against him, which were published in a circular letter and sent broadcast among members of his congregation. His opponents were chided for not making their charges in the regular way before the Presbytery itself.

AMERICAN FLAGS OF AMERICAN COTTON.

Washington, June 30.—American flags of American cotton, more durable and as good in all other respects as the time-honored ensign made of wool, have found their way into government service. Supplies of the cotton flag will be available to army and navy beginning tomorrow. The cotton flags cost less, wear longer, and are more truly expressive of America.

Secretary McAdoo of the Treasury Department is given the credit for developing this new field for the use of the great product of the south. It was he who directed service and textile tests which it is claimed demonstrated the superior serviceability of the cotton flag.

There are a thousand buildings in the country from which, in due time, the cotton flag will fly. There are the coast guard cutters that will carry the American flag of cotton into many ports and on many missions of mercy. The adoption by the army and navy is optional, but there is little doubt that both arms of the military service will adopt it.

yesterday after a short visit to their uncle and aunt, Mr. and Mrs. John Davis.

CARDINAL GIBBONS 54 YEARS IN CHURCH SERVICE.

Baltimore, Md., June 30.—James Cardinal Gibbons, the beloved prelate of the Roman Catholic Church, today completes his 54th year in church work. He was ordained in 1861, and was invested a cardinal in 1906. The famous churchman will be 81 years old next month. Congratulations poured in on him today from clergy and laymen in all sections of the country.

COMPLETES 12,000 MILES IN BOAT.

Chicago, June 30.—Charles E. Wellman of this city will arrive back in Chicago tomorrow, completing a trip of 12,000 miles in his 40-foot cruiser, Cleo II. With his wife he started down the Mississippi, up the gulf and along the Atlantic seaboard to the Gulf of St. Lawrence. He went up the St. Lawrence and into the Great Lakes. He began the long cruise on September 16.

MAYOR QUILTS OFFICE TO AVOID SCANDAL.

Steubenville, O., June 30.—Mayor George W. McLeish quits his office tomorrow, according to the terms of his resignation, made while he was under prosecution in connection with municipal affairs. Indictments against his brother, James McLeish and his son, Clay McLeish, have been quashed under the agreement. Safety Directors Needham and Service Director Gavin, are also to quit office tomorrow, under the arrangement by which prosecution of the cases was dropped.

SOUTHERN PACIFIC GETS NEW LINES.

Portland, Ore., June 30.—Six railroads in Oregon will tomorrow become divisions of the Southern Pacific. The identities of the lines will be merged. The lines taken over are the Cervallia and Easter, from Albany to aquima Bay; the Pacific Railway and Navigation Co., Hillsboro to Tillamook; the Salem, Falls City and Western, Salem to Lines Points; the Willamette-Pacific, now nearing completion, from Eugene to Coos Bay; the Portland, Eugene and Eastern, and the Coos Bay, Roseburg and Eastern, which has a line under construction.

PUTTING THE LID ON COMSTOCK

New York, June 30.—Anthony Comstock, whose long service in the suppression of vice has made him famous, today ceases to be a U. S. postoffice inspector. The vice crusader held the office for forty years, most of which period he served without salary. Comstock has exercised personal supervision over the morals of New York for many decades. He won some notable victories, but of late years his influence has waned. It is said the society which has backed him has stripped him of most of his support.

From Friday's Daily.

A STRONG PLAY LAST NIGHT.

Dramatization of Marie Corelli's Novel, "Wormwood," Was One of the Best Pictures Ever Shown.

One of the strongest and most impressive dramas ever put on a screen was shown at the Strand Theatre last night, when the five-reel dramatization of Marie Corelli's most famous novel, "Wormwood," was shown to large and appreciative audiences, being a play that held undivided attention from the beginning of a beautiful plot to the denouement in the final act when a fiend dies on the bed in the home from which he had departed in his wanderings.

"Wormwood," as all readers of the novel are familiar with, is a masterpiece in fiction founded on the evils of those addicted to the use of absinthe, that terrible beverage which clouds the mind, kills the intellect and obsesses one of the devil. The absintheur, as portrayed by Marie Corelli, is a fiend incarnate when under the influence of the potential drink, his transformation being from that of a kind and sympathetic man to one who, in his desperation and obsession avenges himself on the innocent. The play carries a little romance at the beginning, interweaving itself into a pretty story. Then comes the disappointment in the life of a young girl, an emotional actress of rare ability takes the part of the girl, her histrionic parts blending in pathos and heart-touching scenes throughout most of the play. The absintheur is his friend prior to his degradation, but in the end, through sheer fear of him she seeks a watery grave after escaping from his clutches after he has killed her lover, her father and indirectly caused the death of others. Retribution comes with the death of the fiend after a farewell note is written to his father describing his misery after being put under the uncontrollable influence of absinthe.

LAREDO TO HAVE SANE FOURTH.

Day Will Be Observed Here With Field Day Events at Fort McIntosh and Concert on Plaza.

Laredo is preparing for a sane celebration of the Glorious Fourth. During the day of Monday, July 5, in celebration of the day proper which falls on Sunday, there will be field day exercises at Fort McIntosh, to which the public in general is invited, and at night on Martin Plaza there will be a band concert by the Ninth Infantry Band. Also on the preceding night, or on July 4 proper, it is planned to have a concert on Martin plaza.

A thousand or more Laredo people will go elsewhere to celebrate the Fourth of July, these being those who will take trips to Corpus, Pearsall and Cotulla, which have big celebrations on this year. One Laredo ball team will go to Corpus and one will go to Cotulla. There will be no pyrotechnical displays in Laredo in commemoration of Independence Day, but the day will be celebrated otherwise in a more becoming manner.

FIRE MARSHAL DIDN'T QUALIFY.

Eugene Christen Didn't Take Oath of Office Pending Settlement of Complications Next Week.

Because of the fact that he can not under the provisions of the law hold two city offices at the same time and act jointly in the capacities of street commissioner and also fire marshal of the city of Laredo, Eugene Christen, who was appointed to the newly-created office of fire marshal, did not qualify yesterday and there is no acting fire marshal.

At the meeting of the city council next Tuesday night the complications which have been precipitated in connection with the dual appointment will be threshed out and it is probable that Mr. Christen will resign as street commissioner and that office be abandoned and he will be made fire marshal. The matter will be settled one way or the other at the regular meeting of the city council to be held on Tuesday evening.

DIED ON AN INCOMING TRAIN FROM THREE PISTOL WOUNDS

SERAFIN SALINAS SUCCUMBED TO INTERNAL HEMORRHAGES.

Had Been Shot the Night Before on a Ranch Near Hebbronville and Was Being Brought to Laredo.

While being brought to this city yesterday afternoon from Hebbronville for medical treatment of wounds received the night before on El Mezquite ranch, Serafin Salinas, aged 30 years, who had been employed on the ranch, died on the train just as it rolled into the city limits of Laredo. He was on a cot in the baggage car attended by his uncle, E. Salinas. The uncle had been asked by the young man to get him a drink of water and the request was complied with, and just as he had imbibed the water he dropped back on the cot dead. On arrival at the station here Justice of the Peace Benavides was summoned to hold an inquest, and after examining the body and taking testimony he decided that death was due to pistol wounds, presumably causing internal hemorrhage.

During the night before on El Mezquite ranch Salinas was shot three times, it is alleged, by a man named Benjamin Gonzales, two wounds resulting in the right arm and one through the right liver. It is believed that death was superinduced by internal hemorrhage caused by the liver wound. The dead man had been a resident of Herrerias, Nuevo Leon, Mexico, but left Mexico some time ago on account of the revolution and secured employment on El Mezquite ranch.

Following the coroner's inquest the body was turned over to John Convery for preparation for burial. They are now being held at the Convery parlors pending the arrival of relatives this afternoon, when it will be determined what disposition will be made of the body.

The man Benjamin Gonzales, who is charged with the killing of Salinas, had not been arrested up to last night, though a warrant of arrest charging him with murder was issued immediately after the death of Salinas.

HANDSOME UNIFORMS ARRIVE.

Suits, Caps and Stockings for the Laredo Base Ball Team Arrived Yesterday from Chicago.

The handsome and up-to-date uniforms and caps, together with stockings, for the Laredo Base Ball Club arrived yesterday afternoon, the equipment having been ordered from Reach & Co. through the One Price Department Store.

The nifty outfits will be worn in the team's initial appearance on the Cotulla diamond Monday afternoon. The uniforms and caps are of gray, with black lettering running down the fronts of the blouses and the letter "L" on the front of the caps. The stockings are white and blue.

The team leaves Monday morning for Cotulla, where they will play a game with the Cotulla aggregation during the celebration in that town on that same afternoon.

Cured of Indigestion.
Mrs. Sadie P. Clawson, Indiana, Pa., was bothered with indigestion. "My stomach pained me night and day," she writes. "I would feel bloated and have headache and belching after eating. I also suffered from constipation. My daughter had used Chamberlain's Tablets and they did her so much good that she gave me a few doses of them and insisted upon my trying them. They helped me as nothing else has done." For sale by all dealers. (Adv.)

Becomes a Business Man.
Sam A. Westbrook, son of J. S. Westbrook, is now a business man of Laredo, having yesterday become a partner in the firm of W. H. Mims & Co., life and fire insurance agents. His many friends hope for him a prosperous career and that he has launched forth in the business world with a fair promise of success was evidenced by the fact that when he gave the item to the Times reporter the first question asked was "don't you need some life insurance?" What for? Nobody would waste time killing a newspaper reporter.

\$1,635,000 Hidden In This Year's Goodyear Tires

Here are amazing facts:
Goodyear Fortified Tires contain five costly features found in no other tire. They have other features not common.

If we omitted those features, this year's probable output would cost us \$1,635,000 less. We could add that much to our profits. And you would never know it until troubles came.

This year's improvements alone will cost us \$500,000 yearly. Most of this goes into extra rubber—all into extra wear. And we shall spend on research \$100,000 this year to find other betterments still.

For Use!
I had a plaidie, silken-soft and gay. Worn only on some sunny holiday; For though I knew its weaving of the best—
Fain I'd withhold it from the storm's rough test.
Oft I went shivering through the sleet and rain.
My treasure's dainty freshness to retain.
Till in cold waters of Adversity Unwarned we fell—ere I could fling it free!
And then? I found, in spite of all my fear,
Its bonny color still more fair and clear—
Its fabric firmer, giving warmth above
All my need's urgency. . . . The cloak is—love!

Box Party and Dance.
Mr. Henry Crumpler was host to a delightful box-party at the Strand Theatre last evening, honoring Miss Ola Applewhite of San Antonio, the charming niece of Mr. and Mrs. J. A. Applewhite. The crowd of young people have on so many occasions gathered together that congeniality reigned and mirth was king. At the conclusion of the play the party repaired to the City Drug Store where dainty refreshments were served. From there they went to the Elks Hall and danced. Mr. and Mrs. J. A. Applewhite chaperoned the following guests: Misses Emmie and Lillian Westbrook, Etta Thaison, Dora Gullette, Flora Bunn, Elizabeth Mussett, Ethel Mackin, Ouida Valentine of Houston, Ola Applewhite of San Antonio, Louise Muller, Cleo Pereira, Anita Yeager, Marie Mowry; Messrs. Jas. Gray, Ed. and Hugh Cluck, Sam

Westbrook, Robert and Alden Muller, Chester Pickering, Jack Lobdell, Claude Gullette, Benj. Alexander, Walter Nye, Carlos Richter, Gerald Sielski and the host.

General Mention.
Mrs. Annie Macdonald and her daughter, Mrs. H. A. Hamlin, leave Monday for Chicago on a visit to relatives.

Mrs. Justo S. Penn and children returned this afternoon from a visit to her brother, Mr. Herrera, in Dolores, Texas.

Mrs. H. P. Howard will return to Corpus Christi tomorrow, where she has a cottage for the summer. Mrs. Howard has been in Laredo the past few days closing her home here preparatory to sailing for the Philippines. Major and Mrs. Howard have made many friends during their stay in Laredo who regret their leaving. Mr. and Mrs. Paul Matthews returned yesterday from their wedding trip and left at once for their future home in Minera.

Honoring Miss Gallagher.
Misses Marie and Alice Mowry entertained in honor of Mrs. James Gallagher of San Antonio at ten o'clock yesterday morning with a swimming party at Bella Vista, the occasion being Mrs. Gallagher's birthday. A basket lunch was served at twelve o'clock. The invited guests were: Mrs. James Gallagher, Mrs. Elizabeth N. Dew, Misses Sadie and Margaret Martin, Lucille and Ruth Murphy, Frances and Annie Alexander and the hostesses.

Delightful Swimming Party.
A party chaperoned by Mrs. Frank Nye went to Bella Vista at half after five this morning to enjoy an early morning swim. The personnel included: Mrs. Frank Nye, Misses Courtney Slaughter, Miriam Werner, Ruth Scratchley, and Louise Muller; Messrs. Randall Nye, Walter Nye.

DICKENS READERS MEET AT FAIR.

San Francisco, July 2.—The result of three years of preparation found its reward at the opening today of the first American International convention of the Dickens Fellowship Movement, for noted Dickensians from all over the country and from Canada were present. The Dickens Fellowship movement was founded in London thirteen years ago, and has spread around the world. The lovers of Dickens are numerous, and they have come in large numbers to the first American meeting. Noted readers will be heard.

RED CROSS RELIEF NEAR MEXICO CITY

HOSPITALS WITHOUT SURGICAL SUPPLIES AND MUCH NEED OF RELIEF IN STRICKEN CAPITAL.

By Associated Press.
Washington, July 2.—The American Red Cross relief expedition has passed Pachuca en route toward Mexico City, but whether the Zapatistas allowed it to enter the city was not told in Consul Stillman's despatches today. The hospitals in Mexico City are reported without surgical supplies. There was no direct word today from Mexico City. Admiral Howard reports the Yaqui valley quiet and railroad and telegraphic communication from the coast to the valley restored.

Wheat Crop Goes to Waste.
Saltville, July 2.—The largest wheat crop in ten years is in sight in the state of Coahuila but is going to waste because of lack of harvest hands.

BIG BOXING MEET IN MONTREAL.

Montreal, P. Q., July 2.—At Dominion Park arena tonight one of the biggest boxing meets of the year will be held. Johnny Lore meeting Young Terry, and Billy Kramer going against Curley Hume, the English lightweight.

PATRIOTIC WEEK AT WINNIPEG.

Winnipeg, Manitoba, July 2.—A great national patriotic week was ushered in here yesterday, when a monster parade was held. Floats representing the British empire and all its allied nations in the European struggle were in the line of march. Another section of the parade was devoted to educational floats. The festivities will continue until next Wednesday, when a civic hall holiday will bring all the citizens into the celebration. A horseshow, military parades, boat and yacht racing, canoe racing and other sports are on the calendar.

100,000 ITALIAN-AMERICANS OFF TO WAR.

New York, July 2.—A hundred thousand Italian-Americans, some of whom are reservists in the Italian army, are answering the call of the mother country, and already several thousand sons of Italy are on the high seas bound for the war. It is estimated it will take nearly all summer to secure accommodations for the men aboard the ships bound for the Mediterranean. They are an eager lot, according to all reports, and many of them have never had military experience.

It is said that Italy will use the contingent from America in the reserve forces, which are now being recruited rapidly. The reservists will have the first call for actual service at the front, while the recruits are being put through the necessary course of training.

Parades of the volunteers are being held in all the big cities of the East, where the Italian quarters are gay with the flag of the mother country. The enthusiasm of the Italian colonies knows no bounds, and the men who are to go to the front are veritable heroes.

It is said that the Greeks of this country are impatient for a chance to enlist. The old hatred of the Turk burns steadily among the half million of Greeks along the Atlantic seaboard. When the Greco-Bulgarian war broke out some years ago, the Greeks flocked back to the standard by thousands from the United States, and they maintain an organization in America which is ready to send 100,000 men in short notice to aid King Constantine if he is forced by popular demand to throw his country into the war on the side of the Allies. It is the belief of the leaders of the American Greeks that such an action would head much of the friction that remains among the Balkan states, and would push the Turks beyond reach of the Mediterranean.

WESTERN MERMAIDS IN FIRST BIG MEET.

San Francisco, July 2.—The first girls' swimming championship race ever held in California will take place today in the big tank at the Exposition. The race is over the 50 yard route and the result will carry with it the Pacific Association championship to be held by the winner for one year. The best swimmers of the Coast will be selected today to enter the girls' international swimming races to be held at the Fair on July 16 and 17, when the girls from other sections of the country will be entered.

London, July 2.—The Germans are hammering away at the French, trying to reach Verdun, and according to the French are using gas and bombs, but were thrown back. London observers do not believe the Germans are withdrawing troops from the East to strengthen the Western forces, however, but think they will try to take Warsaw first. German advances in Galicia continue, Berlin claiming advances all along the line. Russia does not claim any halt of the German around Lemberg, but declares the Russians making a stand at the Gnila Lipa river and other points are using high explosives, causing enormous casualties among the Austro-Germans. The Austro-Italian front is the scene of desperate fighting but little advance. Amsterdam reports that a Zeppelin accidentally exploded in Brussels.

Sank Three British Steamers.

London, July 2.—German submarines today sank three British steamers—the Ingemoor, Caucausian and Welbury. All the crews were saved. Another submarine sank the British schooner L. C. Tower and then sank a bark. The schooner's crew was saved. All the steamers were of about 4,000 tons. All the ships were sunk in English waters. The crew of the bark was also saved. During June German submarines and mines sank 98 British ships, aggregating 39,000 tons, with a loss of 111 lives.

Greeks Invade Albania.

Rome, July 2.—A despatch from Antivari, Montenegro, says that two large Greek bands are advancing toward Berat, Albania, after occupying the villages en route. Servian and Montenegrin troops have already invaded Albania, while Italians have been stationed there for some time, but there has been no previous intimation that Greece would lay any claim to any section of Albania.

Bar Treaties With Germany.

Zurich, Switzerland, July 2.—At an Austro-German conference in Vienna, where plans were laid for closer economic relations between the two countries, Dr. Reiser, president of the Hansa League, declared that the allies had adopted political and commercial treaties, one providing that in future no one of them would enter into a commercial treaty with Germany without the consent of all.

Use of Old Glory Protested.

Washington, July 2.—In a note soon to be sent to Great Britain concerning restraint of American trade, the United States will protest against the misuse of the United States flag by British ships.

Reached Russian Positions.

Berlin, July 2.—The official report today says that the Germans have reached the Russian positions at Krasnik, southern Russian Poland. The Russians have also been driven back near Zamosc.

Voluntary Munition Workers.

London, July 2.—Forty-six thousand voluntary munition workers have been enrolled.

PORFIRIO DIAZ DEAD.

By Associated Press.
Paris, France, July 2.—Former President Porfirio Diaz of Mexico died here today.

An Economic Fallacy.

According to a statement made at a meeting of the cabinet Tuesday by Secretary Redfield, the total trade balance in favor of the United States on June 19 was \$976,000,000 and he predicted that it would pass the billion-dollar mark by July 1. The figures are enlightening, in that they disprove the economic fallacy that seems to persist in the minds of a great many people that favorable trade balances are an unerring sign of the prosperity of a country. Prosperity is reflected by the reciprocal exchange of commodities between countries and it is generally greatest when the so-called balance of trade is smallest.—Houston Post.

DETERMINED NOT TO LET HUERTA DEPART

HIS PRESENCE IN MEXICO WOULD MENACE AMERICAN PLANS FOR PEACE IN THAT COUNTRY.

By Associated Press.

Washington, July 2.—The United States is determined not to allow Huerta to enter Mexico now when his presence would be a further menace to the plans of the United States to restore peace there. Four different ways of detaining Huerta will be under consideration. It has not been determined what action will be taken on the extradition request the Villa governor of Chihuahua sent Governor Ferguson of Texas, which Mr. Ferguson forwarded to Washington. Secretary of State Lansing pointed out that under the treaty with Mexico this matter is for the governor to settle. If turned over to the Villa authorities Huerta probably would be executed for the murder of Madero.

INDIAN TRIBE BURIES HATCHET.

Lewiston, Idaho, July 2.—The factions of the Nez Perce tribe of Indians have buried the hatchet and all factional jealousies have been discarded. The tribe is holding a grand celebration beginning today, in which the various chiefs with their followers are making merry over the settlement of long-standing differences.

AUTOS SPEED FOR BIG PURSE.

Sloux City, Ia., July 2.—The annual three-hundred mile auto race will be started this noon over the speedway course. The purse this year is \$25,000, and some of the cleverest drivers are entered. The turns on the track have been elevated to allow greater speed, and the entire course has been resurfaced, so that previous records for the 300-mile stretch may go into the discard.

PHILADELPHIA STARTS NEW LINE.

Philadelphia, July 2.—A new steamship line to operate between this port and the Pacific, via the Panama Canal, has been formed. The steamship Edison Light is making its first trip in the new service, and two more vessels will be chartered. The line will be operated by a new concern, the Western Navigation Company. The first cargo consisted of about 4,200 tons.

OKLAHOMA TO HONOR FIRST SETTLERS.

Oklahoma City, Okla., July 2.—This state is preparing to honor its first settlers by the erection of a monument at Salina. The citizens of Salina are raising a big fund, and the monument will mark at Salina the first white settlement in what is now known as Oklahoma. The early settlers were two brothers, named Choteau, who came from St. Louis. The young men had grown up in the Indian trade, and held a practical monopoly of trade with the Osage tribe, which was then numerous. One day, however, in 1796, this trade was lost to them, for Manuel Lisa, a Spaniard, secured from the Spanish governor of Louisiana, an exclusive concession for trading with the Indians in the valley of the Missouri and its tributaries. The Osages occupied the valley of the Osage river and were therefore in the territory of the Spanish traders. So the enterprising St. Louis firm induced a large number of the Osages to move their camp ground and settle in the valleys of the Neosho and Verdigris Rivers, in southern Kansas and northern Oklahoma. And so it was business enterprise that brought the first settlers to this state at the end of the 18th century.

From Saturday's Daily.

A GREAT MAN DIES.

The death of General Porfirio Diaz, for over thirty-five years the dominating figure in the history of Mexico, removes one of the greatest men the century has seen. Whatever his faults, there is no denying that he was the one man who made the name of Mexican respected, who brought peace, prosperity and progress to his country.

Born soon after Mexico escaped from the Spanish yoke, Porfirio Diaz was being educated for the priesthood when Santa Anna attempted to crush the Texas revolution. The young student walked two hundred and fifty miles across the rough country to offer his services as a soldier, but arrived too late, for Mexico had already surrendered to the invading Americans.

Siding with a little band of radicals against the dictatorship of Santa Anna, he was obliged to escape to the hills where he joined the rebel camp of Alvarez. The latter upon his election to the presidency, appointed Diaz a captain of the National Guard.

When Benito Juarez began his memorable campaign against the power of the Roman church in Mexico, Diaz distinguished himself by defeating a force of the clerical revolutionists.

Later Juarez became president through the flight of Comonfort, and a religious war raged throughout Mexico. Diaz was in command of the defense of Vera Cruz, and finally was forced to surrender. Refusing to give his parole, he escaped in disguise, and accepted the command of the eastern army just before the capital was abandoned.

Then followed the French invasion and the coronation of Maximilian, who proclaimed all patriots outlaws. Diaz was captured with a remnant of his followers in his native town of Oaxaca, but soon escaped and gathered again his forces.

Maximilian then offered him the position of commander-in-chief of the armies of the Empire if he would change his allegiance, but Diaz sent back the answer that it was his hope to capture the emperor and subject him to the law of the Republic.

After the French withdrew their support of Maximilian, Diaz took Puebla with terrible slaughter and was besieging the City of Mexico when Maximilian was captured in Queretaro and executed. The capital surrendered and Juarez returned to find the flag of the Republic flying above Diaz's victorious army.

Juarez was then elected president, but died soon after and was succeeded by Lerdo de Tejada, who issued orders for the arrest of Diaz. The capture of Diaz was followed by his escape at Vera Cruz, and when he appeared before the people the army he won assembled won victory after victory and he marched into the capital at the head of an army of 12,000 men, to be elected president a few weeks later.

He held the office until 1880, when he resigned and was succeeded by Gonzalez, because the constitution then did not permit the re-election of a president. This was later amended, and Diaz was president continuously from 1884 until 1911, when he resigned and went abroad.

Diaz made the interior of Mexico as safe for travel as any city street in the world. With harsh repression he put down disorder and banditry, reorganized the army, instituted the rurales—that famous body of constabulary that was the envy of other nations; he invited capital to develop his country, established a school system, improved the land laws, brought railroads into the country—in fact, he did everything that a wise and progressive ruler could do for his people.

His later years were troubled because of the ambitions of others to rise to power over his head, and he left his ungrateful country for a foreign shore in order to pass the remainder of his days in peace and quiet.

His virtues were those of his race; his faults were due to the character of the people he had to govern. But he was recognized in every country save Mexico as one of the greatest soldiers of modern times and one of the wisest rulers this age has ever seen. Peace to his ashes.

THE ARMENIAN AFFAIR.

It is difficult to predict what President Wilson's action will be in regard to the sinking of the Armenian, as so far the full facts in the case have not been officially reported. But it is not too much to expect that his action will be all that is honorable for the American nation and declarative of American rights, at sea as well as ashore.

It is argued by the apologetes for the Germans that the Armenian tried to escape and therefore might be sunk without regard to whether there were neutrals aboard. But this can best be answered by the German declaration that they would continue to sink enemy ships without warning, in which case the Armenian was doomed unless she could escape.

There is no question of the right of the German submarine to capture an enemy vessel, or a vessel flying an enemy flag, even though unarmed and unsuspecting. But that a warship has a right to sink an unarmed merchant vessel simply because she attempts to flee may well be questioned.

A rule of warfare much cited by the Germans is that a civilian who fires on an invading army be shot without trial. But if the same civilian should attempt to escape without offering armed resistance to the enemy, would the soldiers be justified in killing him?

Every rule of civilized warfare that can be distorted into a favorable construction for Germany is cited as the highest authority by the Germans, while any rule of warfare that is not favorable to their cause is set aside as of no value.

One of the rules of civilized warfare is that no neutral country may be invaded, and this was further backed up by treaties solemnly entered into by Prussia and binding upon the German

empire. Yet Germany ruthlessly invaded Belgium and Luxembourg, and claims possession of both by "right of conquest."

By treaty between the United States and Prussia, even contraband does not give the right to capture or sink an American vessel, yet Germany coolly abrogates this treaty, and claims the right to sink any vessel carrying contraband or flying an enemy flag, urging the necessities of submarine warfare as prohibitive of the removal of neutrals before sinking the ship.

All rules of civilized warfare demand that all persons be removed to a place of safety before a vessel carrying contraband is sunk, in cases where she may not be taken to a port, but Germany says that she cannot stop to remove the passenger or crew of a vessel, as her submarines are not equipped to carry a large number of persons, and she coolly goes on murdering defenseless people in order to "strike a blow" at her enemy.

With many warships of Great Britain and France within striking distance, German submarines prefer to attack fishing boats and merchant vessels, as being the safer to attack, and while hardly a day passes that some defenseless vessel not sunk and part of her crew—in some cases, all of them—drowned, the attacks on armed warships are so few that one can hardly remember such a case.

The attack on the Armenia may be proved to have been justified. That is to be decided from the official report. But if not justified, it will simply add one more to the crimes being committed against American citizens by the German submarine warfare.

When the German answer to the American note is received there will be time enough to settle what our future policy toward that country shall be. And it will not have been decided without due deliberation and a strict sense of what is due to Germany as well as to our own country.

The people of the United States will be with the president heart and hand in this matter. Mr. Wilson has had a free hand in settling the case, as the people are confident that it will be settled in a manner that will reflect honor upon them and that will not abate in any degree the dignity of the country.

Bridgie Webber, confessed accomplice in the Rosenthal murder, now says Becker had nothing to do with it. It's hard to tell whether it is influence or money that causes Bridgie's change of heart, but it will not help Becker any.

The death of old Porfirio Diaz will be the sign of much rejoicing on the part of his enemies, while it will cause many to remember and long for a return of the Mexico of his day.

The Villa governor of Chihuahua wants Huerta delivered to him on his requisition as a fugitive from justice and a murderer. We might be willing to trade him for a few of the self-confessed assassins of Americans, who are now wearing the insignia of officers in the Carranza and Villa armies.

The allies are said to have entered into an agreement that no one of them will enter a commercial treaty with Germany without the consent of all. Looks like Germany's slogan of "God Punish England" was something of a roorback.

Another bold German naval attack on Great Britain was made the other day, when five merchant vessels were sunk by submarines. The audacity of the attack may best be understood when one learns that there was not even a shot fired among the five vessels.

EXCURSION TRAIN LEAVES

LAREDO FOR THE SEASIDE

EXCURSION OF CONDUCTORS AND ENGINEERS PULLS OUT.

Eight Coaches on Special Train Which Left at 2 O'clock This Afternoon Loaded With People.

For more than twenty-five years it has been a time-honored custom among the people of Laredo to take an annual jaunt to the seaside at Corpus Christi to spend the glorious Fourth, and on each occasion the excursion has been run so that on that day Laredo people were in the city by the sea on the anniversary of the Declaration of Independence of this grand old union which took place at noon on July 4, 1776.

For some weeks past the announcement that the conductors and engineers of the Texas-Mexican division would run their annual excursion from Laredo to Corpus Christi has been the source of much speculation on the part of many as to whether or not they could avail themselves of the opportunity to take a short vacation at the seaside, and hence the trip to many has been the all-absorbing topic. At first the committee of railroad men having charge of the excursion were fearful that they could not secure sufficient coaches to accommodate the usual large crowd, but this obstacle was later overcome, when the Texas-Mexican Ry. Co. came to their assistance and placed at their disposal the coaches used each Saturday morning to accommodate the weekend excursionists who go to Corpus.

Thus when the time for the conductors and engineers excursion arrived they had eight coaches to accommodate those going on the special train from this city.

The train left the Texas-Mexican station at 2 o'clock this afternoon, the locomotive pulling it being decorated with streamers of bunting and small American flags fluttering here and there on the engine. The eight coaches were filled, the total number of Laredo people aboard the train being placed at 450. Accompanying the excursionists was the Ninth Infantry ball team, together with many soldier fish, oysters, boiled crabs and all articles usually kept in a delicatessen, such as lunches of boiled ham, Swiss, brick and American cheese, corned beef, lunch tongue, pickled herring, salmon, sardines (American, French and Norwegian) in oil or tomato sauce. Short orders of all kinds served promptly. Fresh butter milk daily. The best French drip coffee in Laredo.

The special train is scheduled to reach Corpus Christi at 8:30 this evening. The excursionists will spend Sunday and Monday enjoying the celebration features in the seaside city and leave there Monday night at 11:30 o'clock on their homeward trip, reaching here about 6 o'clock Tuesday morning.

At the southeast corner of the market building on the outside you will find fish, oysters, boiled crabs and all articles usually kept in a delicatessen, such as lunches of boiled ham, Swiss, brick and American cheese, corned beef, lunch tongue, pickled herring, salmon, sardines (American, French and Norwegian) in oil or tomato sauce. Short orders of all kinds served promptly. Fresh butter milk daily. The best French drip coffee in Laredo.

The following is the line-up of the Ninth Infantry ball team as it will appear in the contests against Corpus Christi on tomorrow afternoon in one game and two games on Monday, the team leaving for Corpus Christi on the special excursion train this afternoon. Lieutenant Sturtevant, manager; Bates and Mero, pitchers; Ungrey and Slinger, catchers; Smith, first base; Bell, second base; Dows, third base; Hunton, shortstop; Hopson, left field; Kopokinski, center field; Detmer, right field. The official umpire of the Ninth Infantry regiment also accompanied the team to Corpus and may serve in some of the games.

Severe Attack of Colic Cured. E.E. Cross, who travels in Virginia and other Southern States, was taken suddenly and severely ill with colic. At the first store he came to the merchant recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it cured him. No one should leave home on a journey without a bottle of this preparation. For sale by all dealers.

Remains Were Interred Here. The relatives of Serafin Salinas, the young man who died on the incoming Texas-Mexican train on Thursday afternoon as the result of gunshot wounds received on El Mezquite ranch, arrived here yesterday afternoon. Shortly after their arrival funeral arrangements were made and at 5 o'clock the body was taken from Convery's undertaking parlors to the city cemetery, where interment was made.

Another Handsome Residence. A contract was awarded today to Contractor D. D. Cline for the erection of a handsome two story brick residence for Mr. Arturo Volpe. The site on which the building is to be placed is a part of the old Loma Vista ball park on the Heights. Mr. Cline has everything ready to break ground Monday morning and it will be pushed to completion as soon as possible.

VERDICT FOR PLAINTIFFS

FOR \$20,000 HANDED DOWN

FOLLOWING PARTITION CASE ENDING YESTERDAY.

Lands Were Eliminated From the Final Trial of the Flores vs Ramirez Case; Only Cash Involved.

The civil suit for partition of land, money and cattle, styled Flores et al vs. Ramirez et al, which was called in the district court in this city for last Monday, was terminated at about 3 o'clock yesterday afternoon and one hour later a decision was handed down in favor of the plaintiffs, the nephews and nieces of the deceased man whose estate was in litigation.

In rendering his decision Judge Mullaly held that the estate of Vela Ramirez, the man whose estate was involved in the suit and who died intestate, was domiciled in Mexico at the time of his death and that the Mexican law would therefore control the descent and distribution of all personal property of the estate that was located in Texas. The decision of Judge Mullaly pertains only to the distribution of the money held in a Laredo bank and is in favor of the nephews and nieces of Ramirez for about \$20,000. The land involved in the case and included in the suit at the beginning of the trial were later eliminated from the pleadings of the issues of the case and therefore were not included in the judgment.

The plaintiffs in the legal battle which lasted most of the week were represented by Hicks, Hicks, Tegaraden and Dickinson, while the widow of the deceased Ramirez, as defendant, was represented by T. C. Mann.

Headache and Nervousness Cured. "Chamberlain's Tablets are entitled to all the praise I can give them," writes Mrs. Richard Oip, Spencerport, N. Y. "They have cured me of headache and nervousness and restored me to my normal health." For sale by all dealers. (Adv.)

Was Strong Newspaper Play. The three-act feature play, "Thirty," at the Strand Theatre last night was a good one, the play strongly depicting the life of the men of the fourth estate, or newspaper bunch. The editorial room scenes, the battery of linotypes, etc., were strongly brought out, while Francis X. Bushman, in the role of the star reporter, in whose duties were interwoven a little romance as a result of his experience with the heiress, who after his capture in the grounds of her home makes him her special representative to handle the "detestable reporters" all contribute to the formation of a basis for a real live newspaper story. But the star reporter, who the heiress finally becomes the friend of the reporter's staff and editors and the star reporter becomes the manager of a paper in which the heiress owns controlling stock, "Thirty" in a printing office means the final piece of copy is on the hook and the day's work is ended, and the reporter's "Thirty" in this case is the heiress, who has been "hooked" by him, and well—"All's well that ends well."
